

## How to install XeerSoft Tools

All installation software can get from [FTP](#)

you need to [enable FTP in chrome](#):

We need to enable FTP through Chrome on all Windows devices.

Under chrome://flags  [1 Reply](#)

We are looking to manage our Chrome Browsers as we are running Oracle/ERP and need to move from IE to Chrome. We need enable FTP inside of Chrome on 1500 Domain joined PCs.

Do we need to have a enterprise installation of Chrome to manage the Chrome installs that are already out there?

These are the manual steps we have to take now.

### How to Enable FTP Support in Chrome

In Chrome 81, FTP support is disabled by default, but you can enable it using the # **enable-ftp** flag.

- Open Chrome and type “`chrome://flags`” in the address bar.
- Once in the flags area, type “`enable-ftp`” in the search bar stating “search flags”.
- When you see the “**Enable support for FTP URLs**” option tap where it says “**Default**”.
- Tap “**Enable**” option.
- Hit “**Relaunch Now**” option at the bottom of the page.
- Chrome will relaunch and the Chrome will start supporting FTP.

### Before the session:

1. Unzip Windows XP Professional - Copy.rar in your hard disk

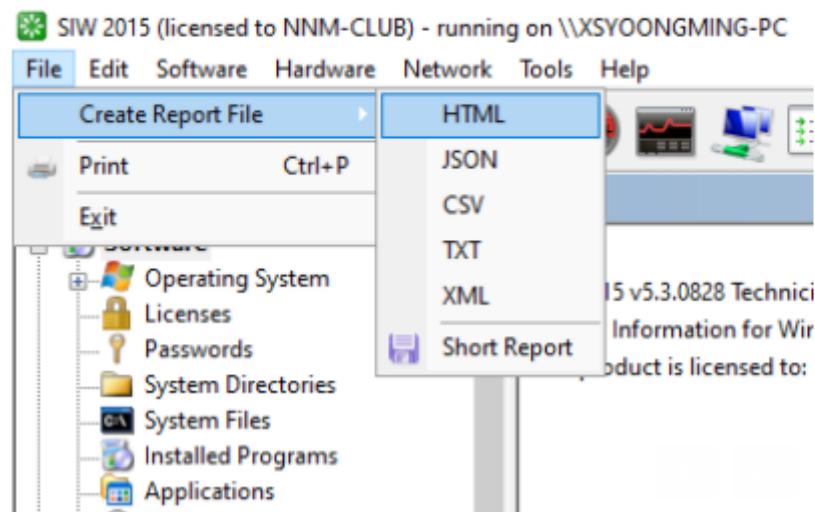

### Before start the installation:

1. Change your laptop name to YourName-PC

2. To ensure no cracked software, scan your laptop with SIW.

2.1. At current page bottom attachment, download [siw\\_audit\\_application.rar](#), generate the HTML and email to infra for checking...if has any cracked software, please uninstall it  
[SIW - System Information for Windows](#)

To generate the file, simply run the program. Go to "File" -> "Create Report File" -> "HTML". Choose a destination to save the file then save it.

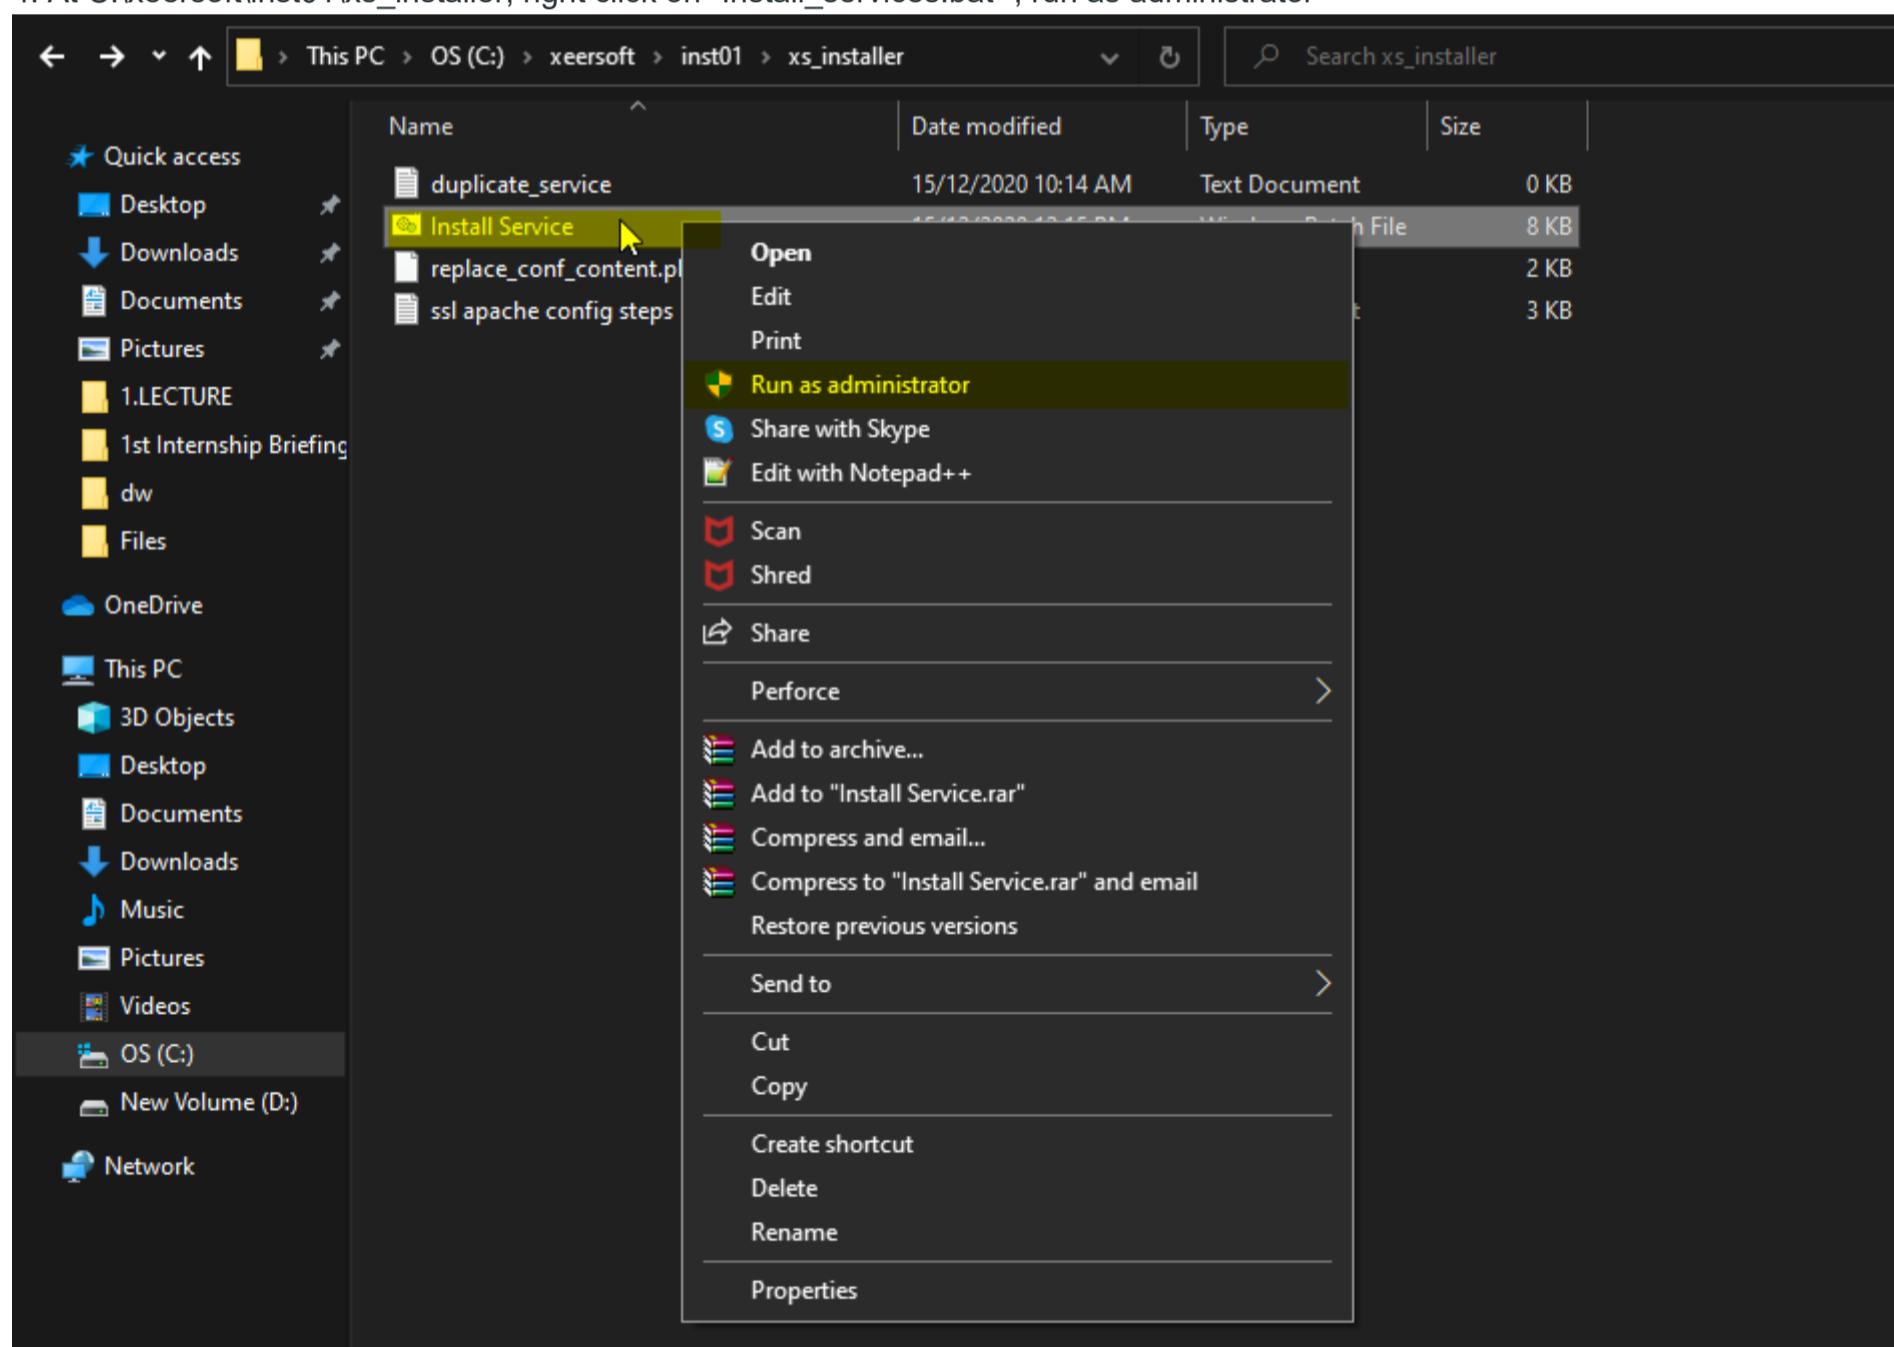

3. To ensure no virus, install your laptop with [malwarebytes](#) and scan 1 time
4. Email the malwarebyte report and SIW report to infra for checking.

The following are the steps of install Xeersoft Tools:

#### Xeersoft System

1. download latest nll000 (everytime request latest one from infra) **(for New comer, infra should already email the link to you,tgt with the password)**
2. Get latest xeersoft\_64bit.rar from [FTP](#)
3. Unzip the xeersoft\_64bit.rar file and put under C:\
3. Unzip nll000 put under C:\xeersoft\inst01\database\_3307\data **(make sure no double folder nll000)**
4. At C:\xeersoft\inst01\xs\_installer, right click on "Install\_services.bat" , run as administrator

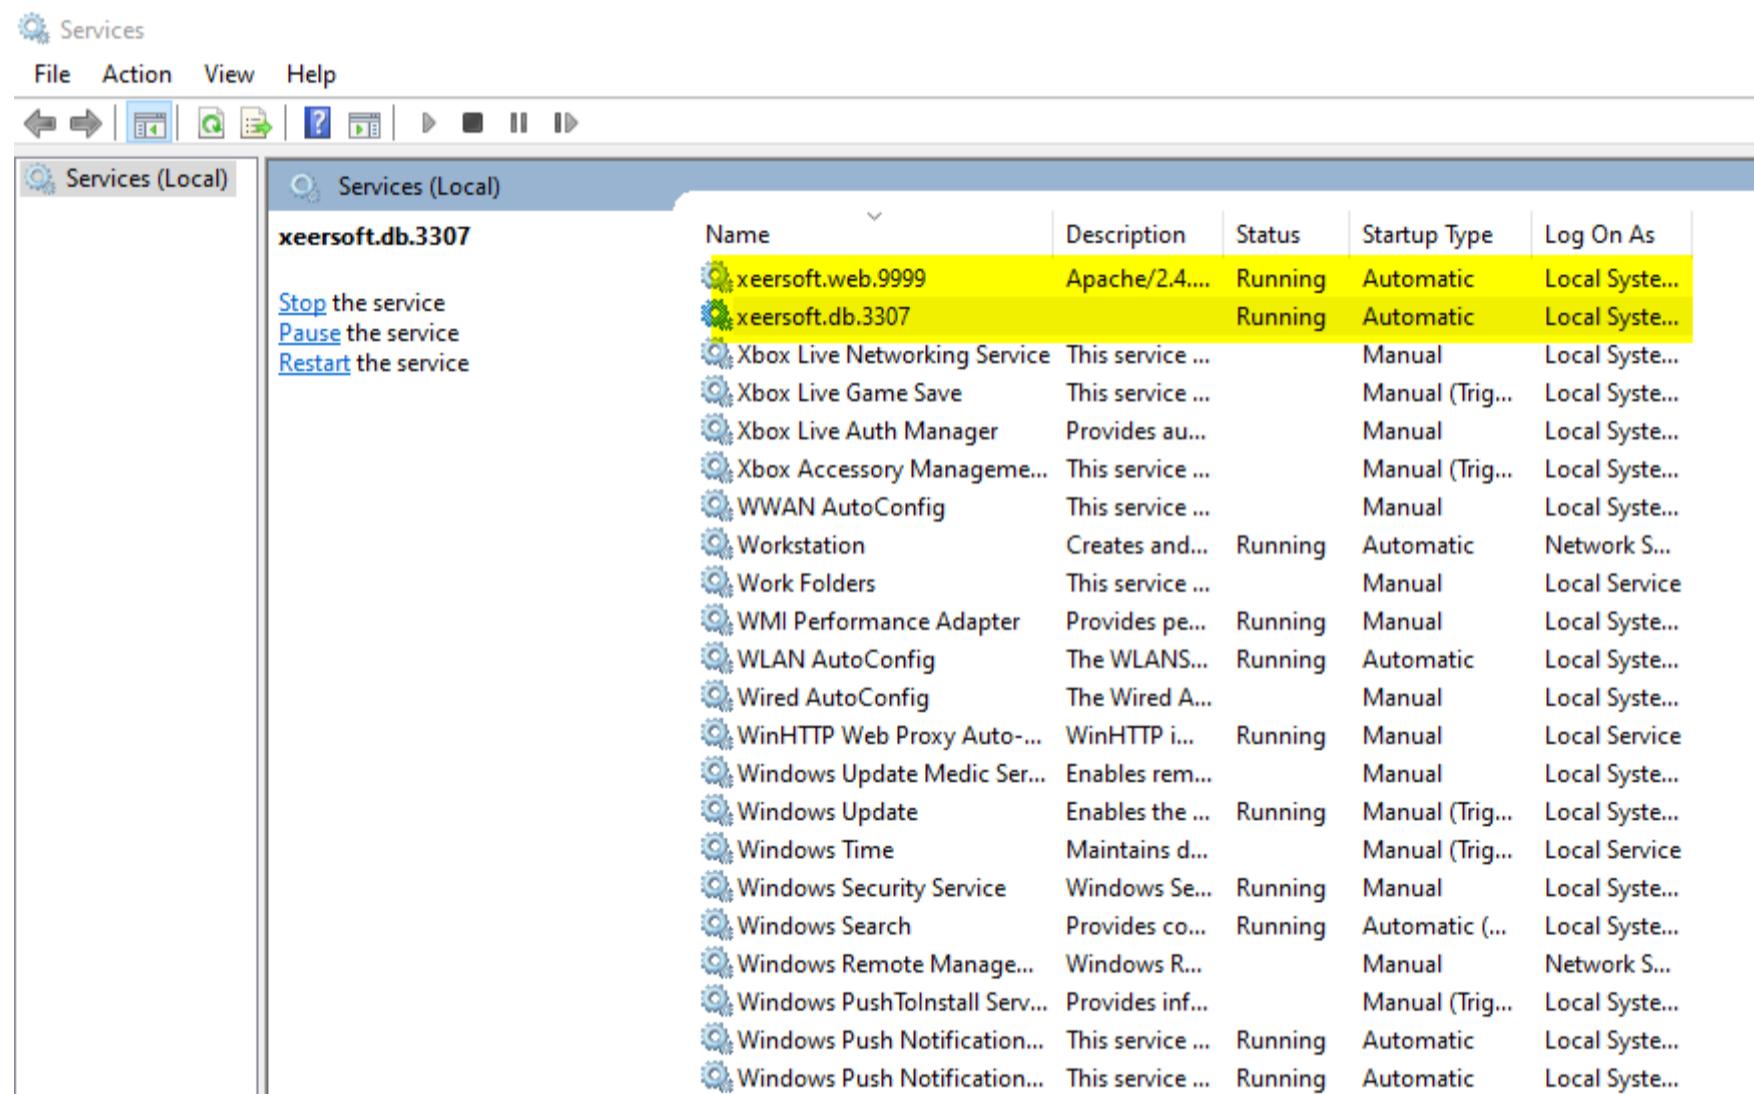

```

Administrator: C:\WINDOWS\System32\cmd.exe
Enter password to activate program: *****
Invalid Password
Enter password to activate program: *****
----- XEERSOFT SERVICES INSTALLATION -----
Please make sure to stop and uninstall apache and mysql services before proceed
-----
MENU
1. Install Standard Xeersoft apache and mysql ports
2. New Apache Web service (web)
3. New MySQL Db service (db)
4. Exit
-----
Choose a number?

```

5. Activate Password: [855rs0f7](#)  
 5.1. Choose [1. Install Standard Xeersoft apache and mysql ports](#)  
 5.2. Make sure the Services is Running:  
 -Xeersoft.Web.9999  
 -Xeersoft.DB.3307

The screenshot shows the Windows Services snap-in. On the left, there's a tree view with a node expanded for 'xeersoft.db.3307'. Underneath it, three links are visible: 'Stop the service', 'Pause the service', and 'Restart the service'. The main pane displays a table of services. The two custom services are highlighted with yellow backgrounds:

## Tools 1: SQL Yog Community

- installer name: SQLYog-13.0.1-0.x64Community.exe
- a. Start the setup by click 'Next' button. (Refer figure 1.1)

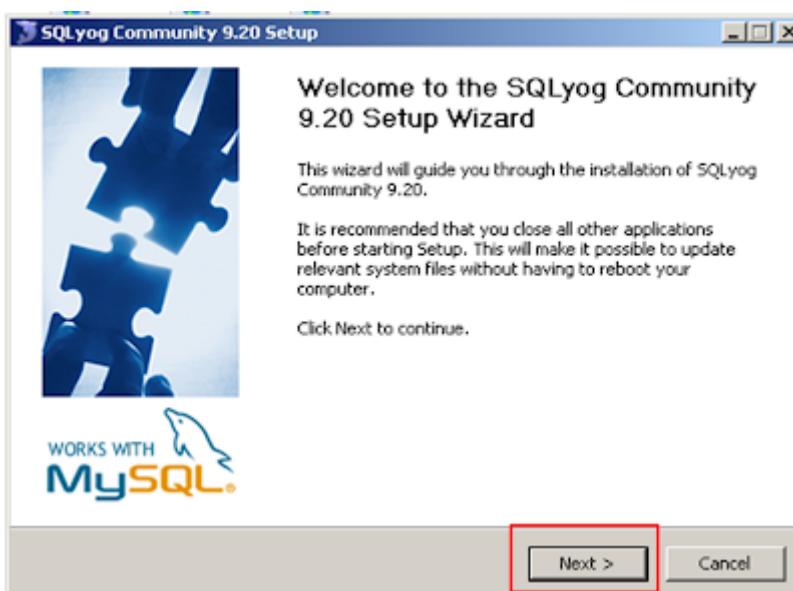

Figure 1.1

b. Accept the license agreement and click 'Next' button to continue. (Refer figure 1.2)

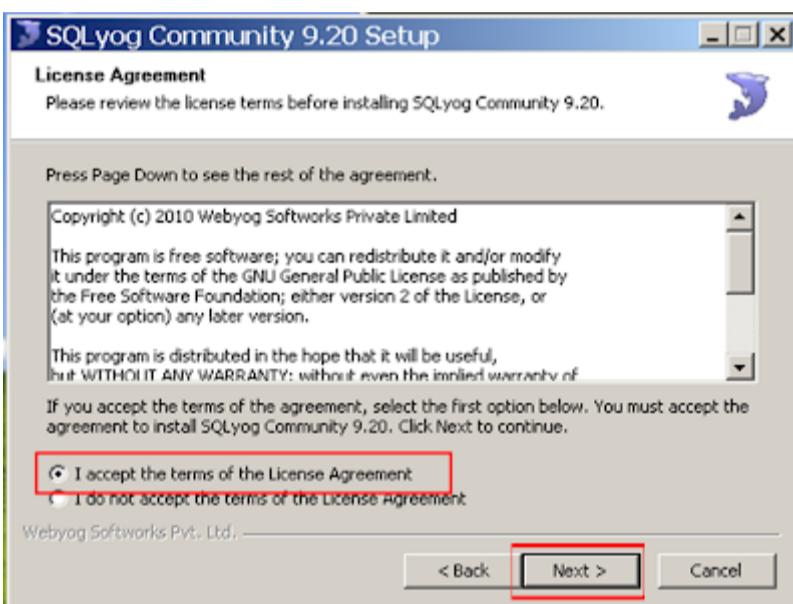

Figure 1.2

c. Choose the components to install and click 'Next' button. (Refer figure 1.3)

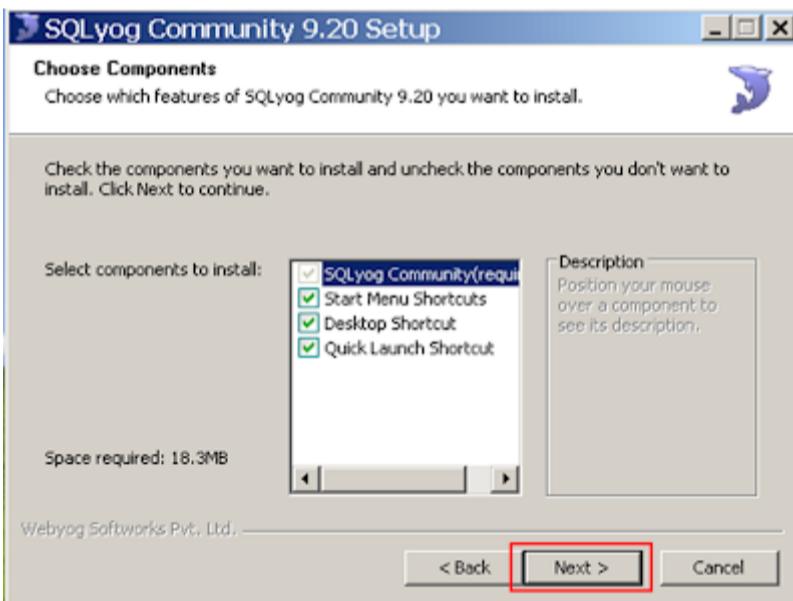

Figure 1.3

d. Enter the destination folder and click 'Install' to start the installation. (Refer figure 1.4)

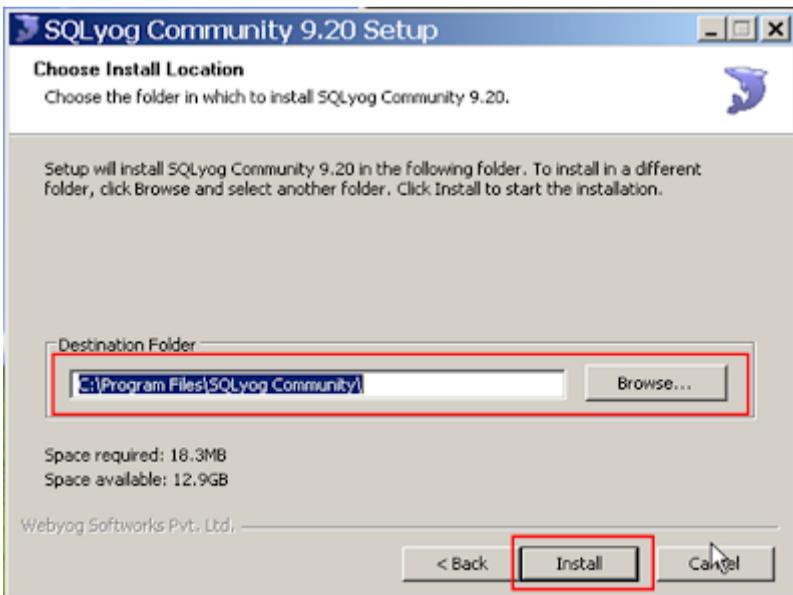

Figure 1.4

e. Wait for the installation. Click 'Next' button when installation complete. (Refer figure 1.5)

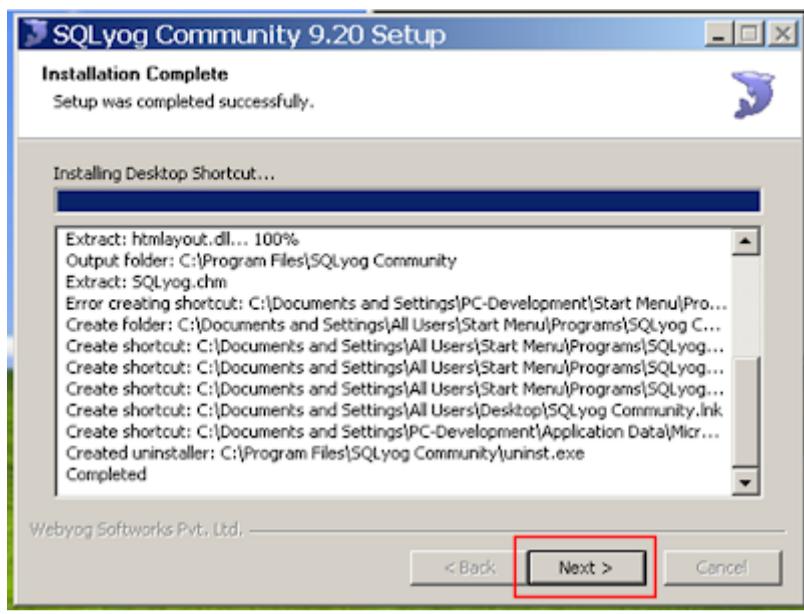

Figure 1.5

f. Click 'Finish' when installation finish. (Refer figure 1.6)

Figure 1.6

g. When launch the SQL Yog Community, select the language you want. (Refer figure 1.7)

Figure 1.7

h. Connect to the MySQL host by enter the information as below, and click on 'Connect' button (Refer figure 1.8). After successful connect to the host, you can start to use the software.

MSQL Host Address: localhost  
Username: dbuser  
Password: password  
Port: 3307

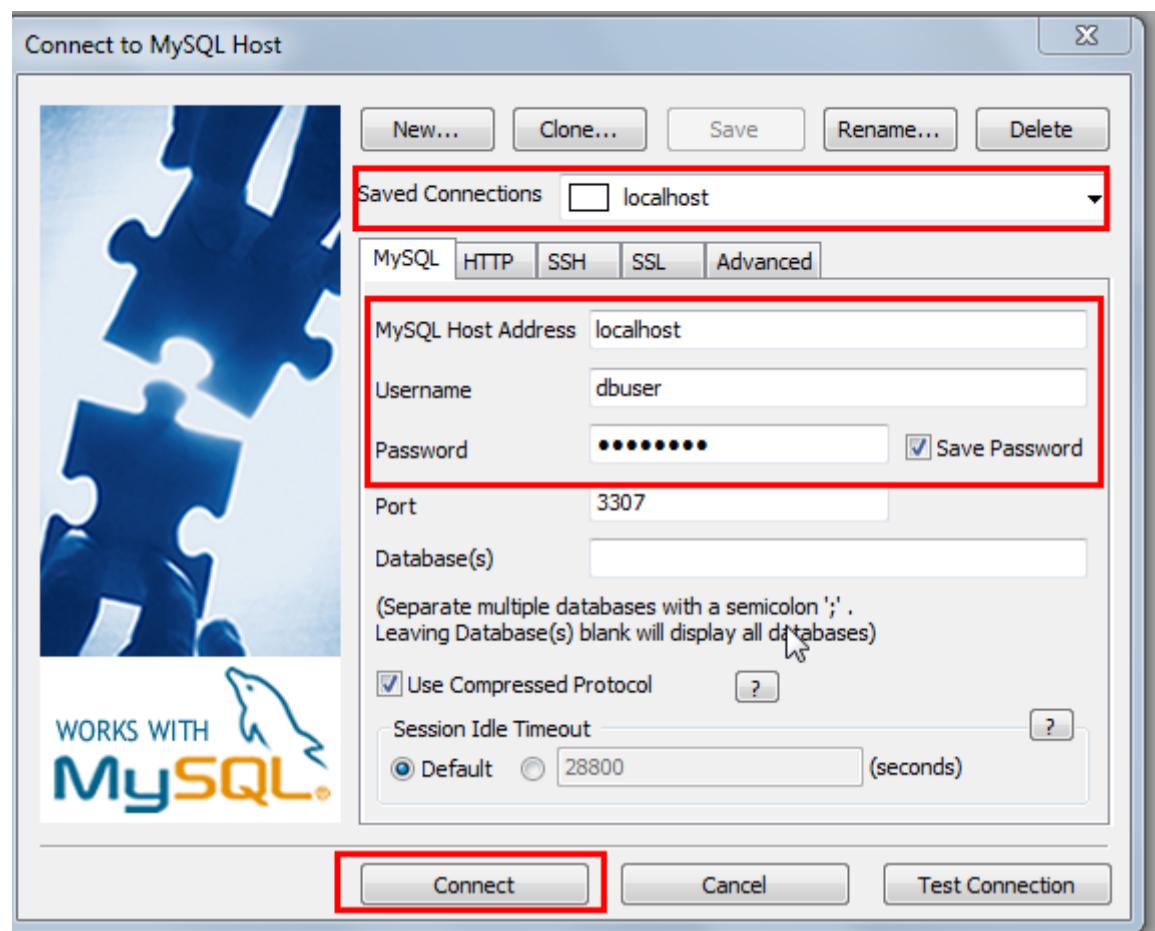

Figure 1.8

- Close the sqlyog and Click on 'Continue' button. (Refer figure 1.9)

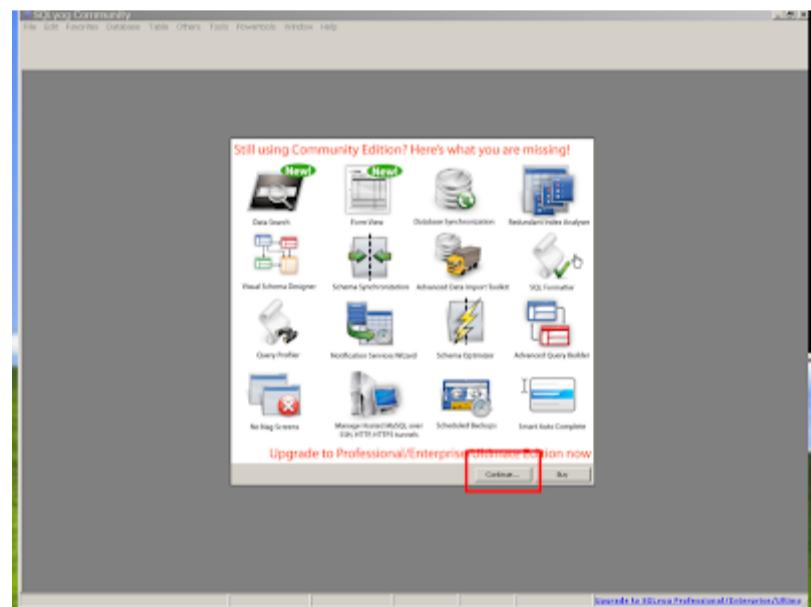

Figure 1.9

## Tools 2: VMware Player

- installer name: VMware-player-12.5.6-5528349.exe

- Start the setup by click 'Next' button. (Refer figure 2.1)

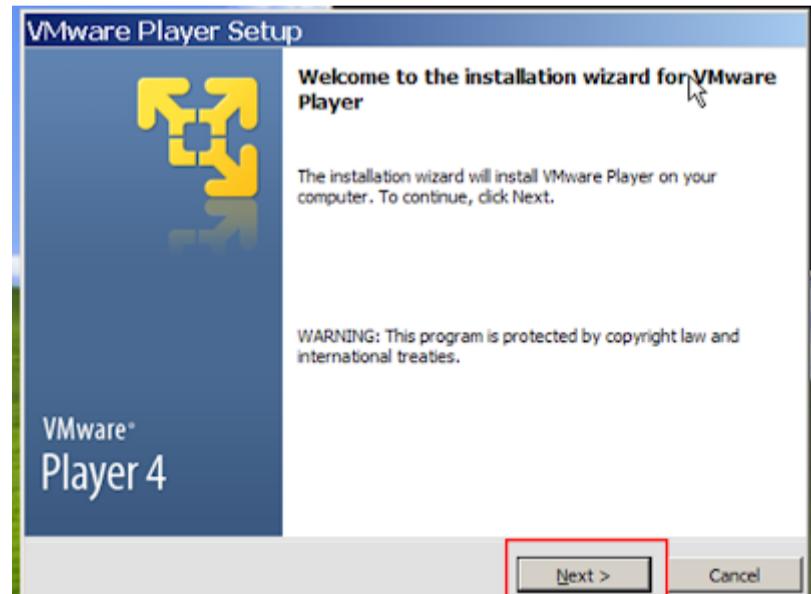

Figure 2.1

- Select the destination folder and click 'Next' button to continue. (Refer figure 2.2)

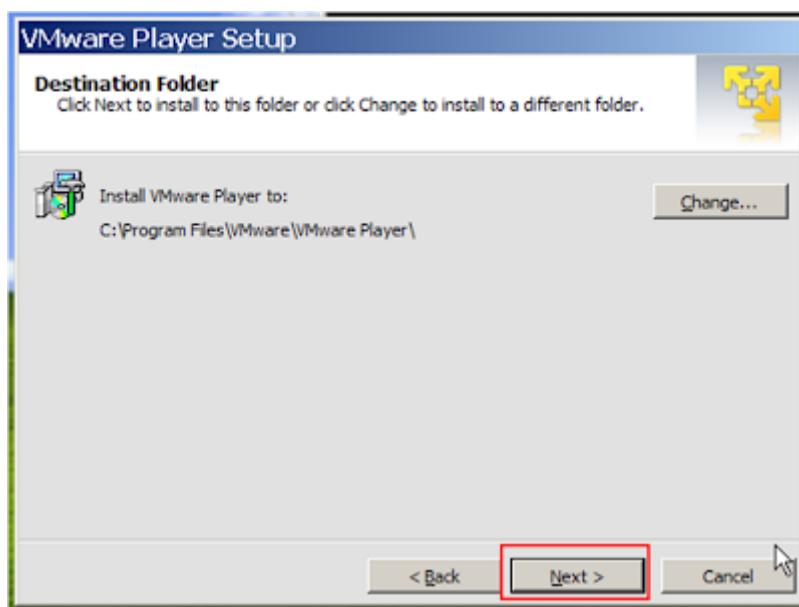

Figure 2.2

c. Uncheck the check box if you don't like check for the software update. Click 'Next' button to continue. (Refer figure 2.3)

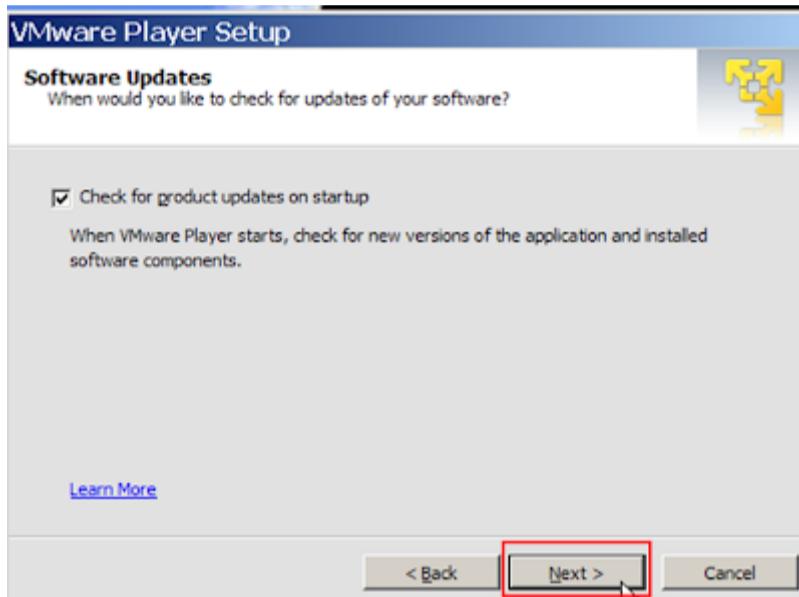

Figure 2.3

d. Uncheck the check box if you don't like send feedback for the software. Click 'Next' button to continue. (Refer figure 2.4)

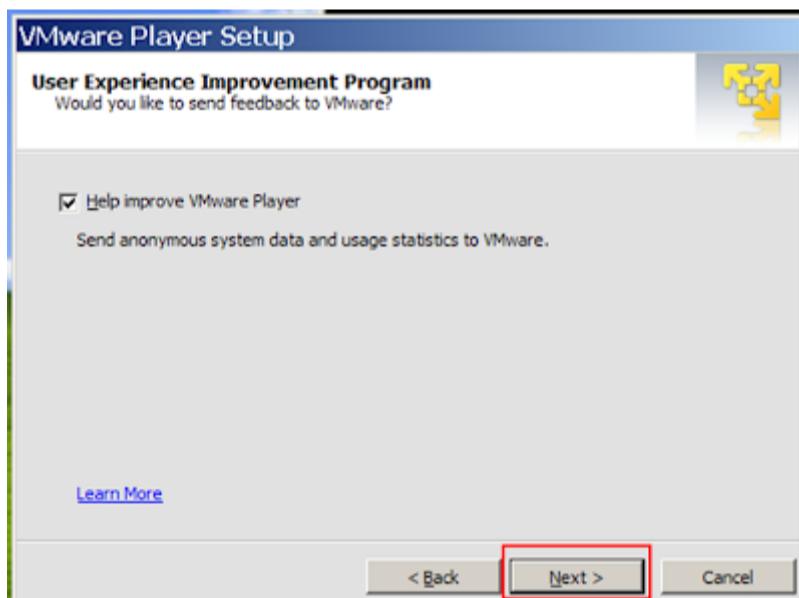

Figure 2.4

e. Select the shortcut that you wish to place on your system and click 'Next' button to continue. (Refer figure 2.5)

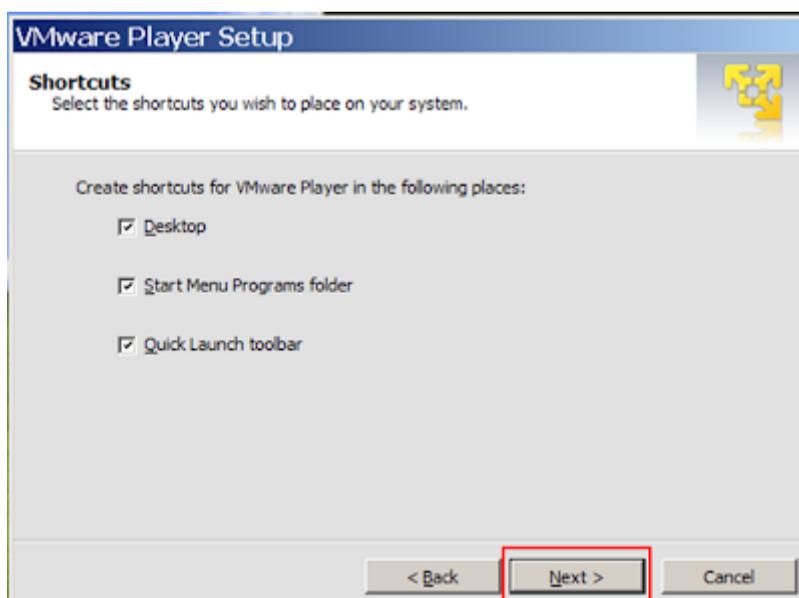

Figure 2.5

f. Click the 'Continue' button if you are ready to perform the requested operations. (Refer figure 2.6) The progress may need several minutes, please wait it patiently.

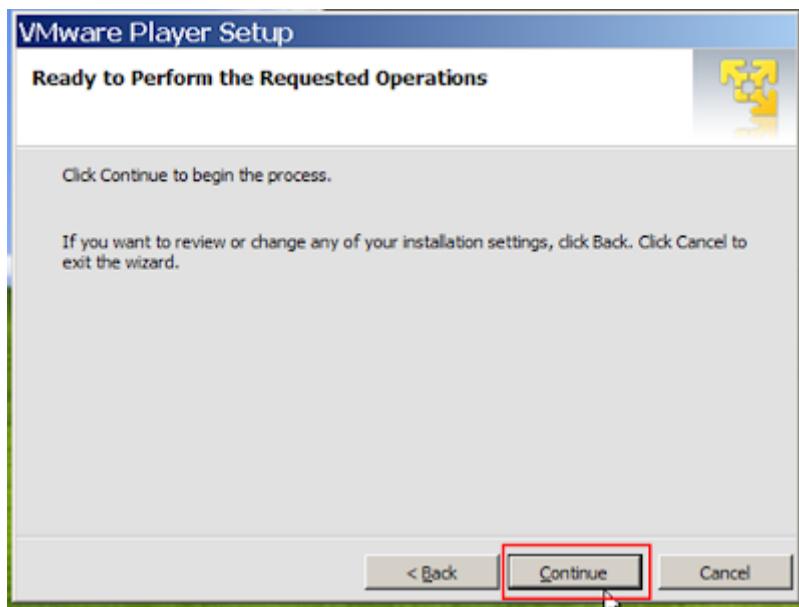

Figure 2.6

g. The setup success, click 'Restart Later' button if you plan to restart your PC after this. (Refer figure 2.7)

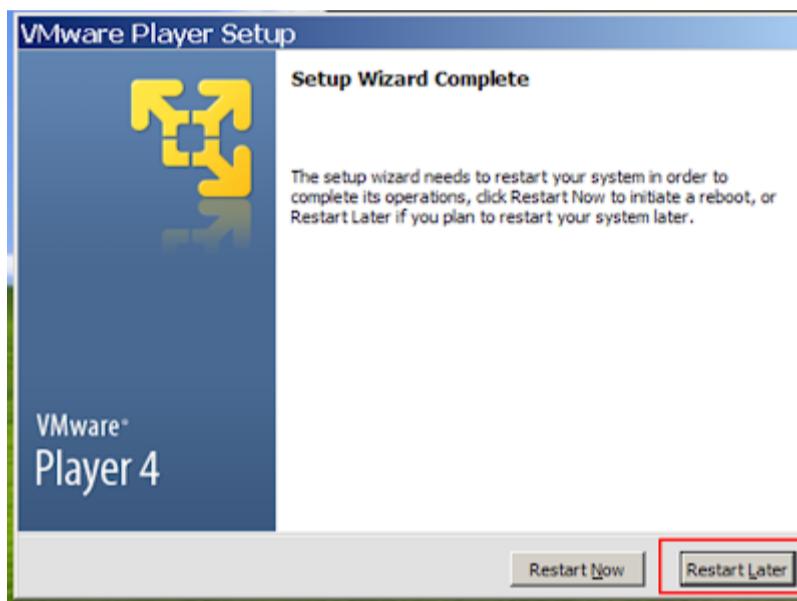

Figure 2.7

h. Choose Use for non-commercial and key in xeersoft email(Refer figure 2.8)

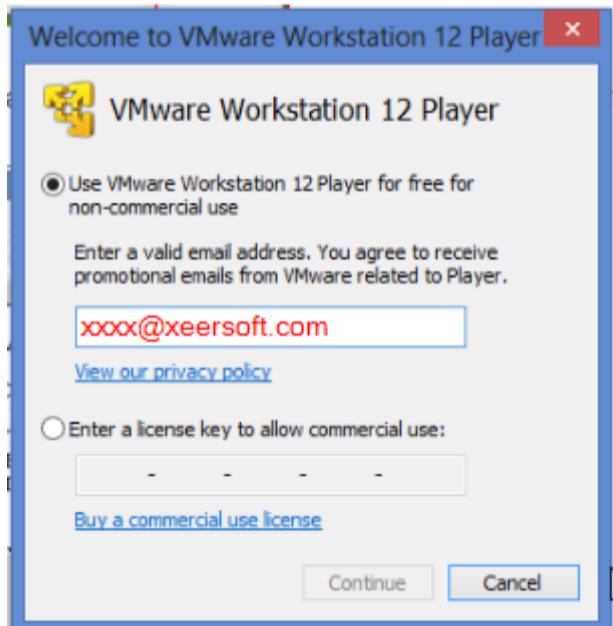

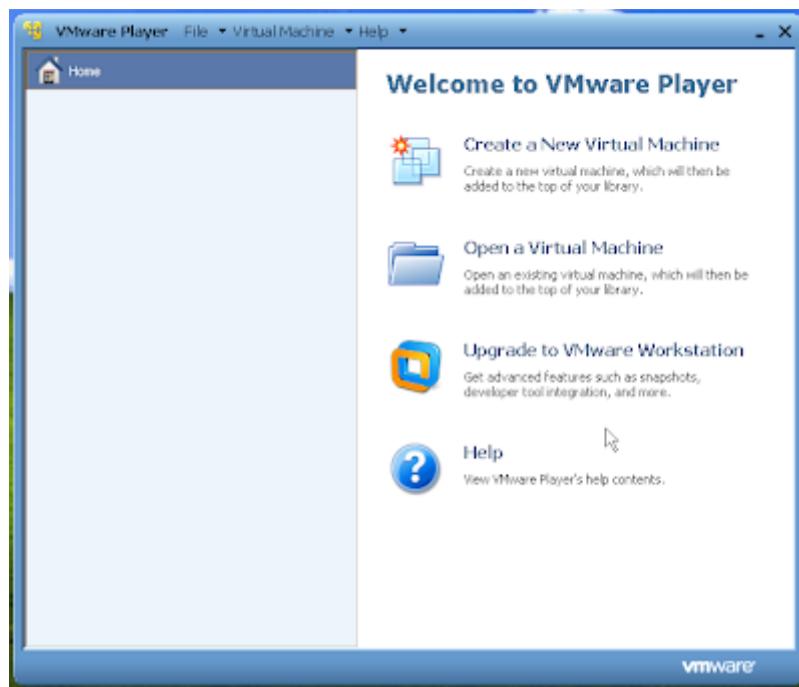

Figure 2.8

i. When you launch the software, accept the license agreement and click 'OK' button to continue. (Refer figure 2.9)

*Figure 2.9*

j. The VMware Player is as shown as Figure 2.10.

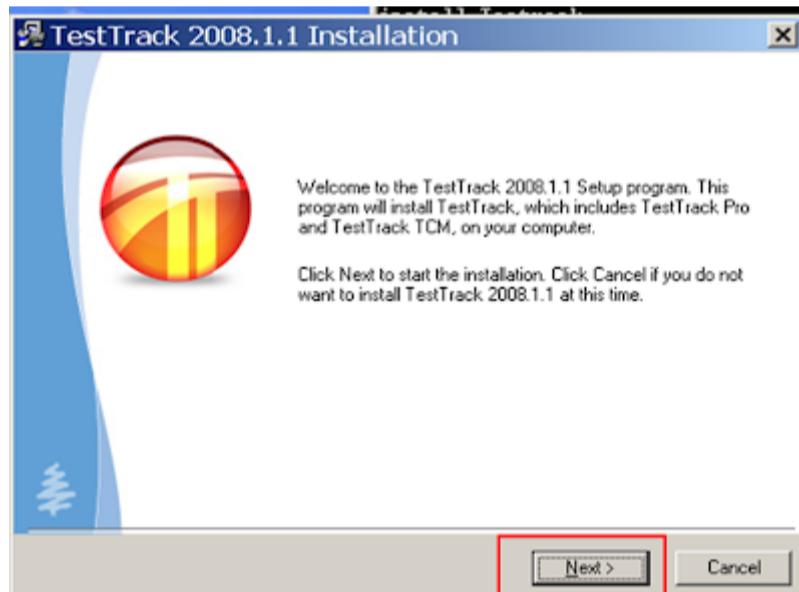

*Figure 2.10*

### Tools 3: TestTrack 2008

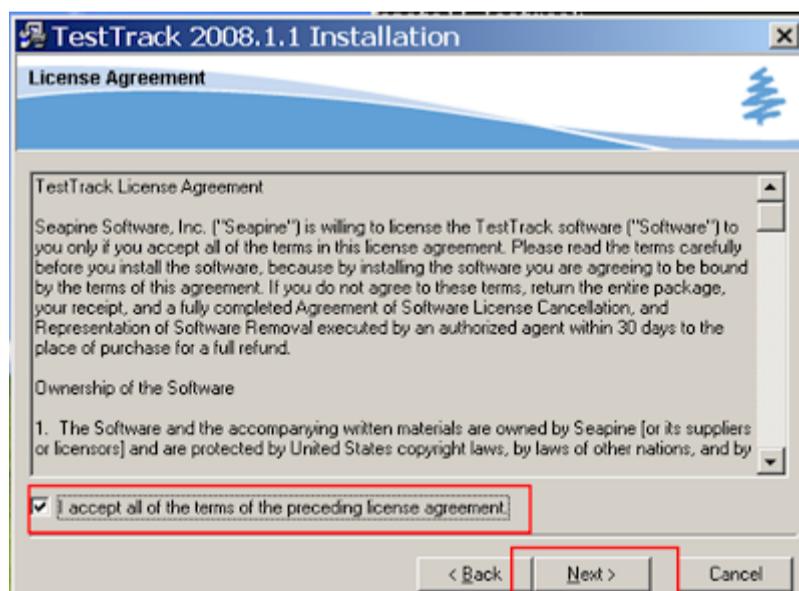

- installer name: ttwininstall.exe

a. Click 'Next' button to start the installation. (Refer figure 4.1)

*Figure 4.1*

b. Accept the license agreement and click 'Next' button. (Refer figure 4.2)

*Figure 4.2*

c. Choose the 'TestTrack Client installation' option and click 'Next' button to continue. (Refer figure 4.3)

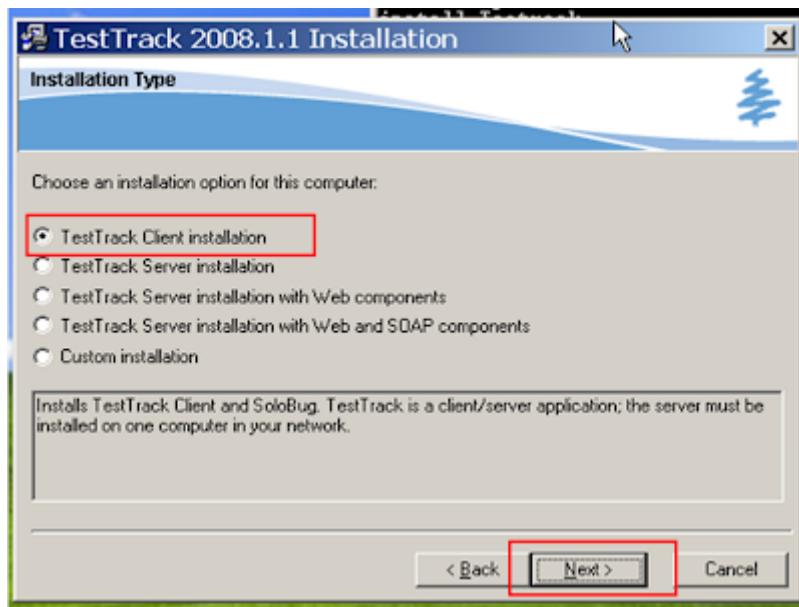

Figure 4.3

d. Choose the destination folder and click 'Next' button to continue. (Refer figure 4.4)

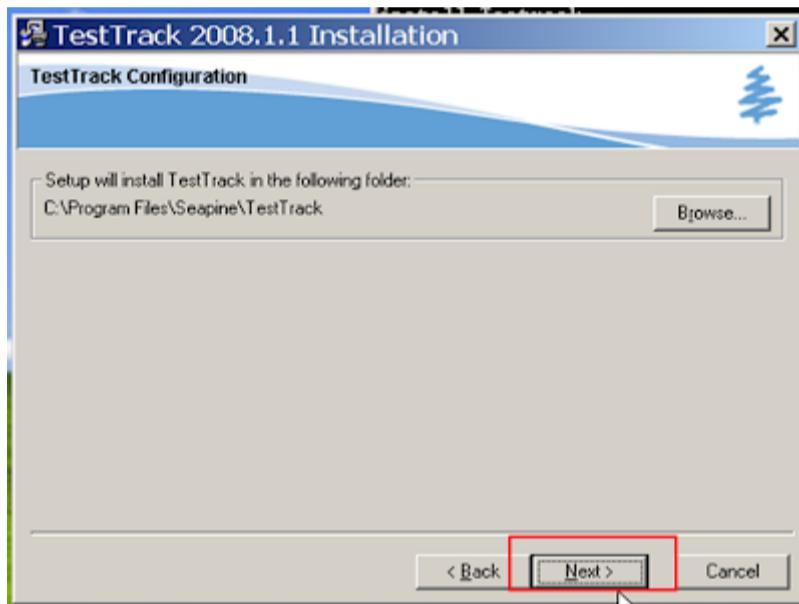

Figure 4.4

e. Click 'Install' button to start the installation. (Refer figure 4.5) The process may need several minutes, please wait it patiently.

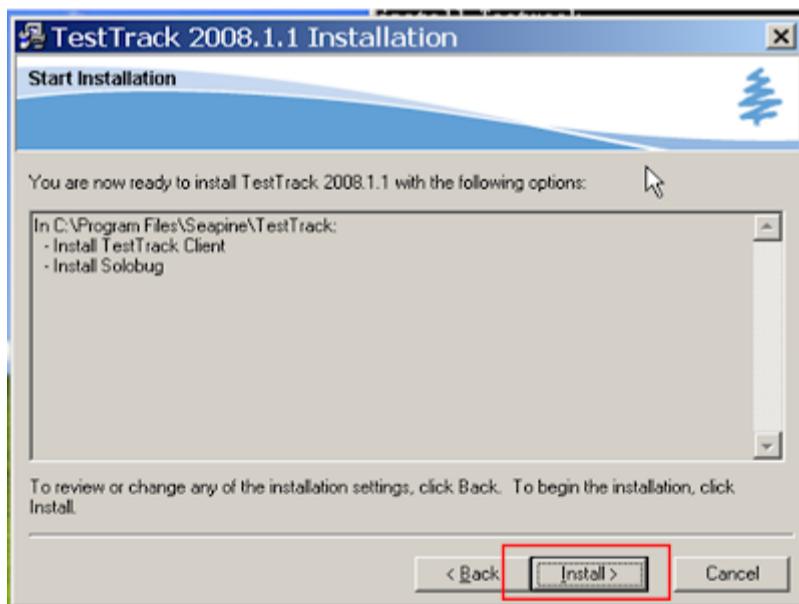

Figure 4.5

f. The installation success and click 'Finish' button. (Refer figure 4.6)

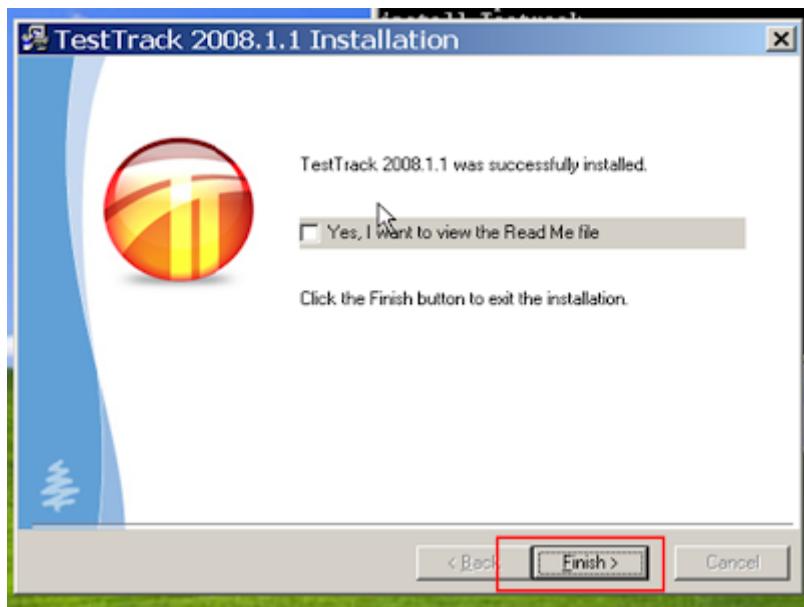

Figure 4.6

g. Enter the server information and click 'OK' to continue. (Refer figure 4.7)

Server Name: debug.xeersoft.com

Server Address: debug.xeersoft.com

Port: 99

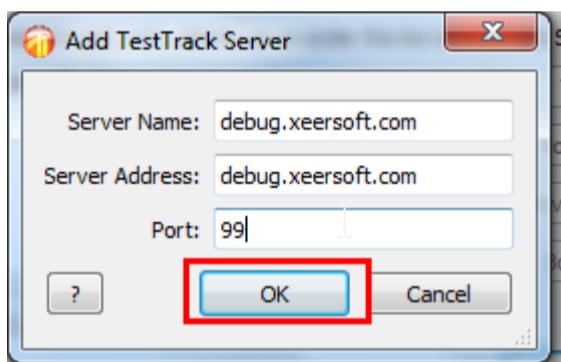

Figure 4.7

h. Login to the software and click 'Connect' button. (Refer figure 4.8)

Figure 4.8

Note: Please request the username and password from Infrastructure team.

**\*\*Intern** developers will using **shared account**, where **username and password: intern-dev**

i. Select 'XeerSoft Quality Center' project, and click 'OK' button. (Refer figure 4.9)

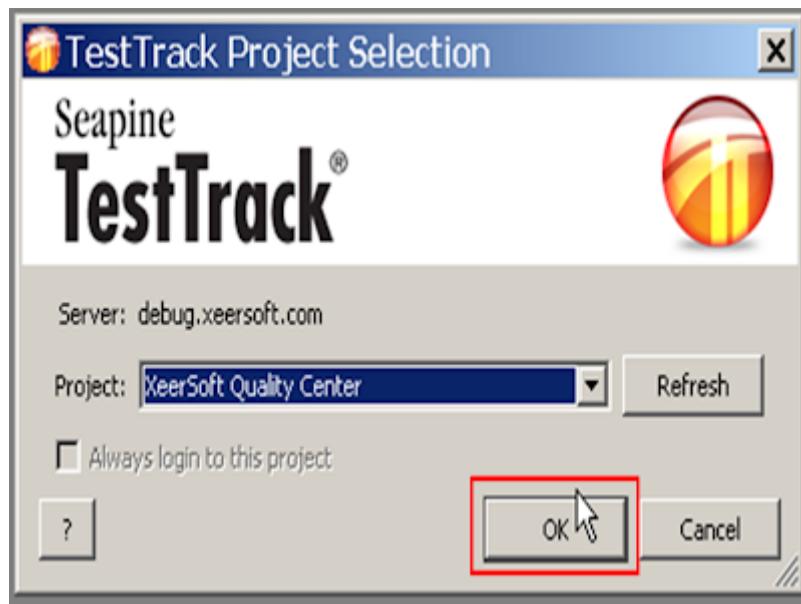

Figure 4.9

#### Tools 4: Perforce P4Win

- installer name: p4vinst64.exe

a. Select the features to install, destination folder and click 'Next' to continue. (Refer figure 5.1)

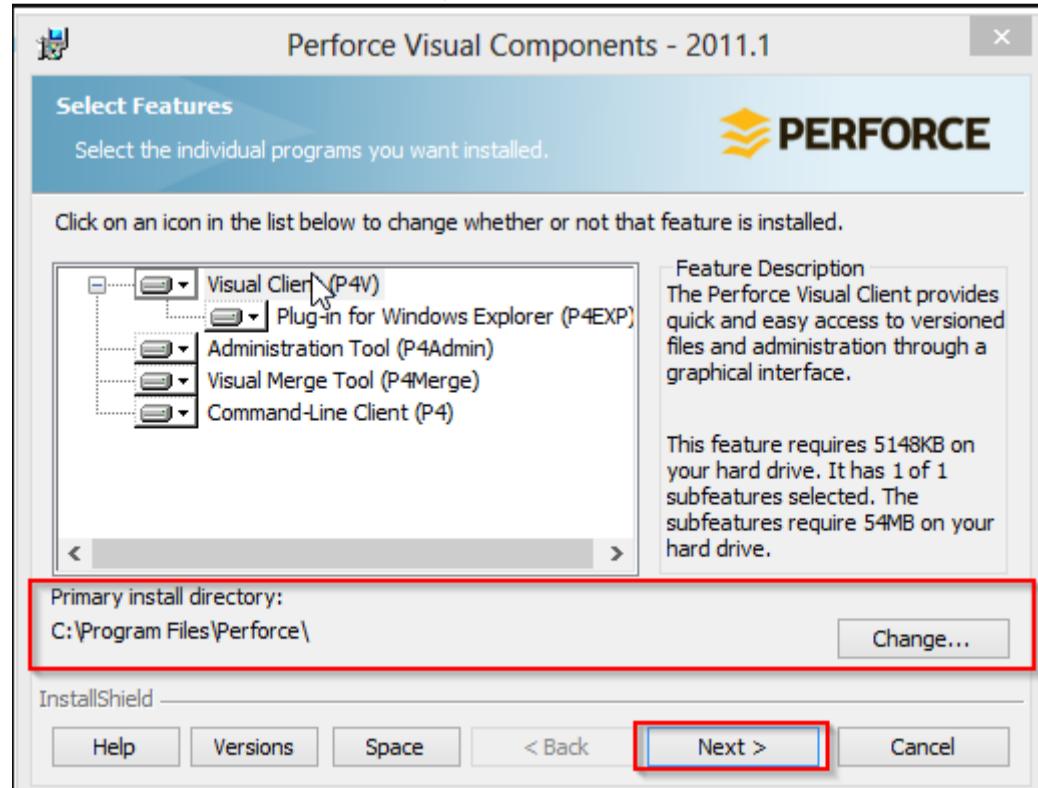

Figure 5.1

b. Enter the following:

Server: qc.xeersoft.com:1666  
User Name: (request from infra)

Then click 'Next' button to continue. (Refer figure 5.2)

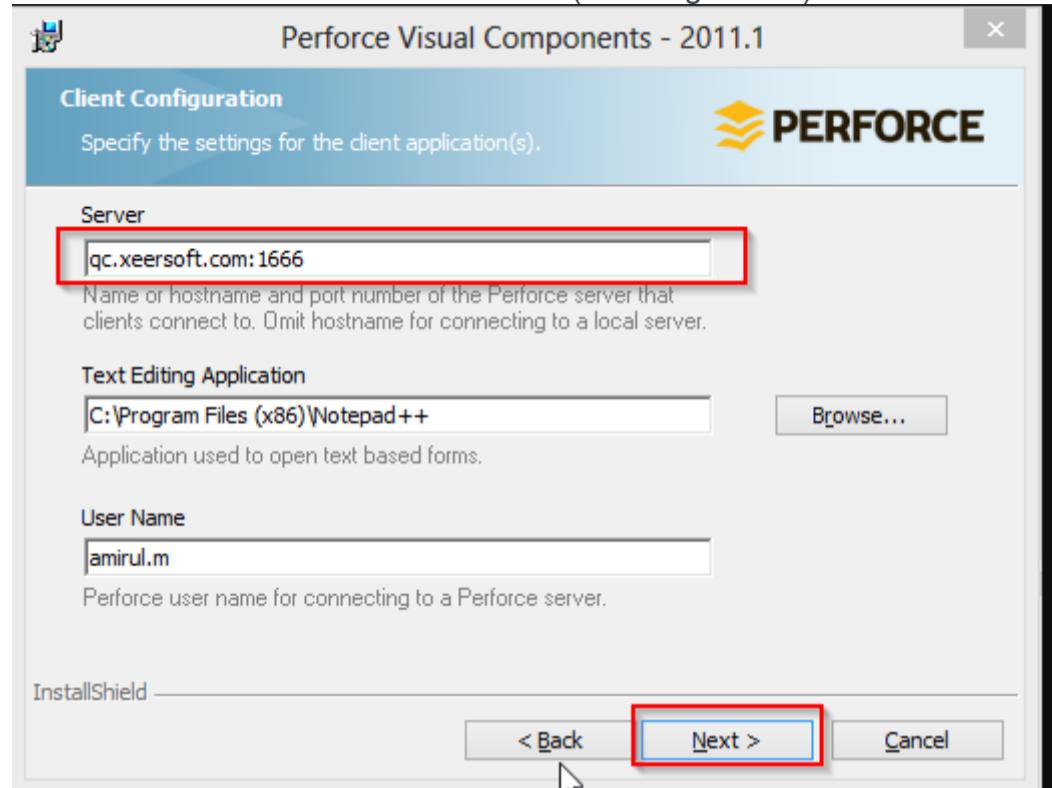

Figure 5.2

c. Click 'Start' button to start the installation. (Refer figure 5.3) The process may take several minutes, please wait it patiently.

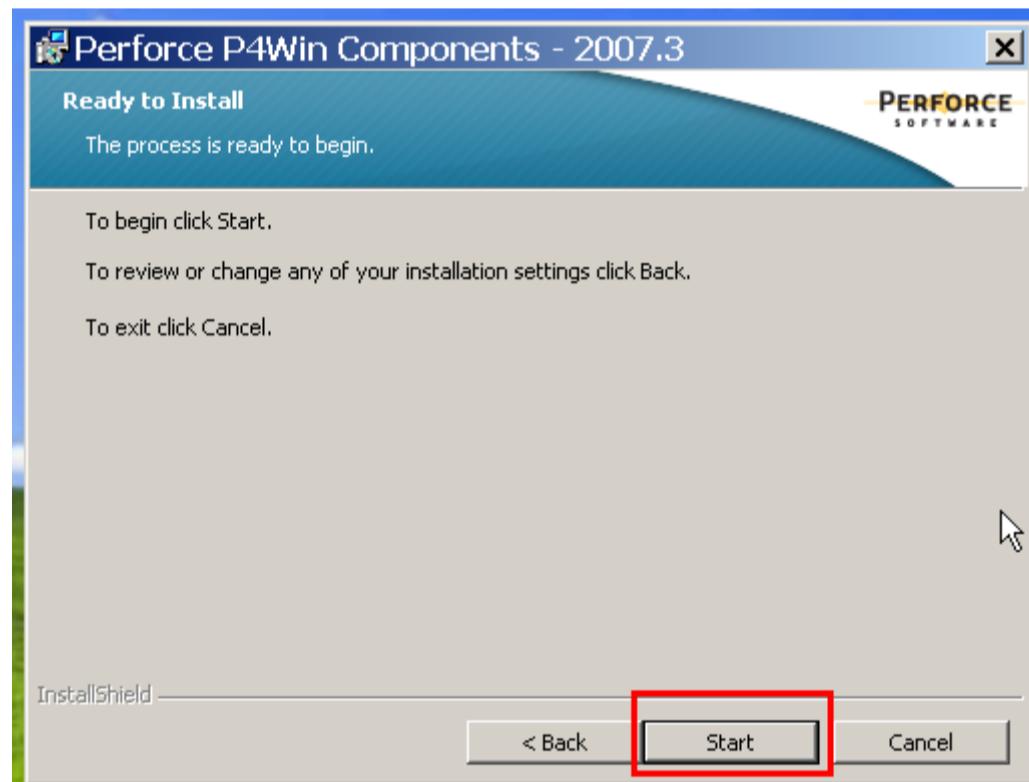

Figure 5.3

d. Installation success, click 'Finish' button. (Refer figure 5.4)

Figure 5.4

#### Tools 5: Notepad++ v6.5.3

- installer name: npp.7.5.7.Installer.x64.exe

a. Select the language and click 'Ok' to continue. (Refer figure 6.1)

Figure 6.1

b. Click 'Next' to continue. (Refer figure 6.2)

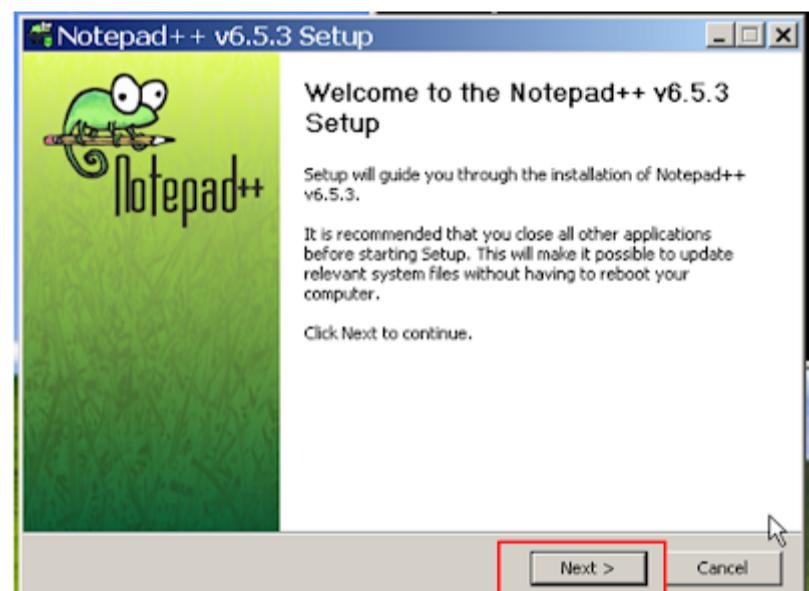

Figure 6.2

c. Click 'I Agree' button to accept the license agreement. (Refer figure 6.3)

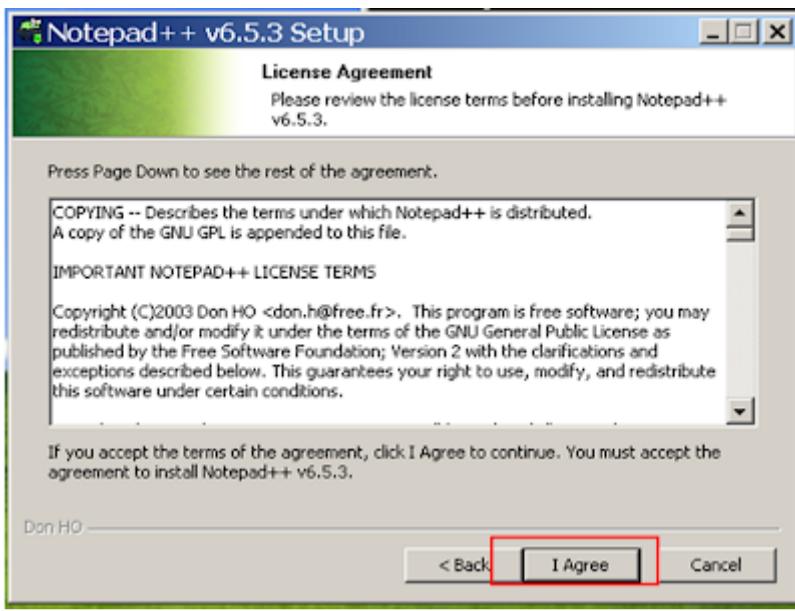

Figure 6.3

d. Choose the destination folder and click 'Next' button to continue. (Refer figure 6.4)

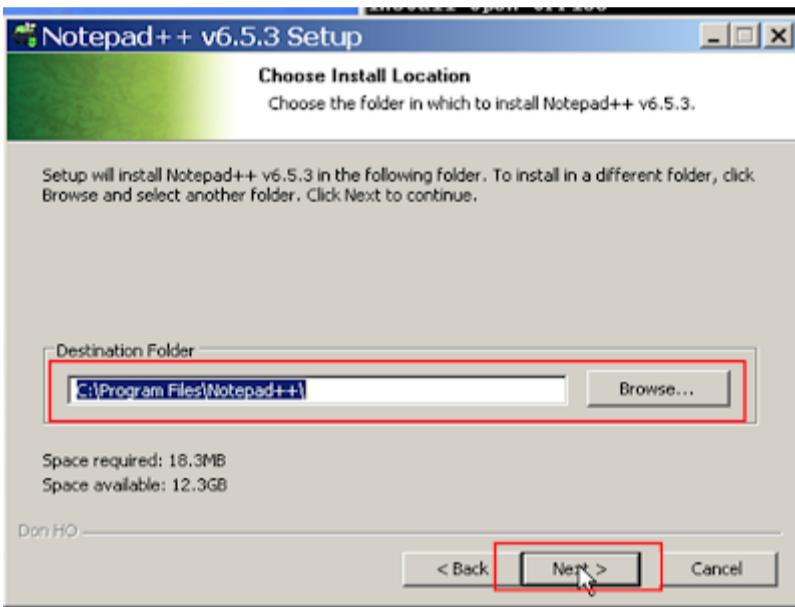

Figure 6.4

e. Choose the components that you want to install and click 'Next' button to continue.(Refer figure 6.5)

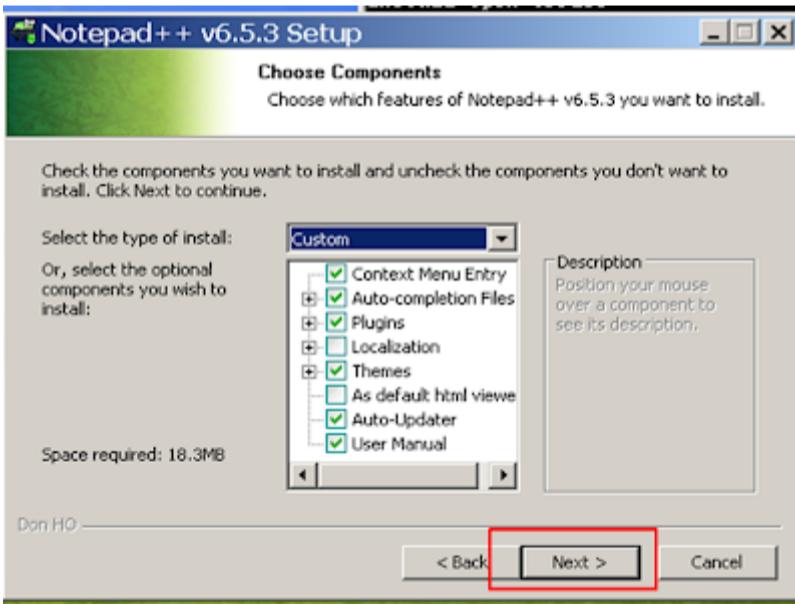

Figure 6.5

f. Tick the check boxes as tick in figure below and click 'Install' button to start the installation. (Refer figure 6.6) The process may take several minutes, please wait patiently.

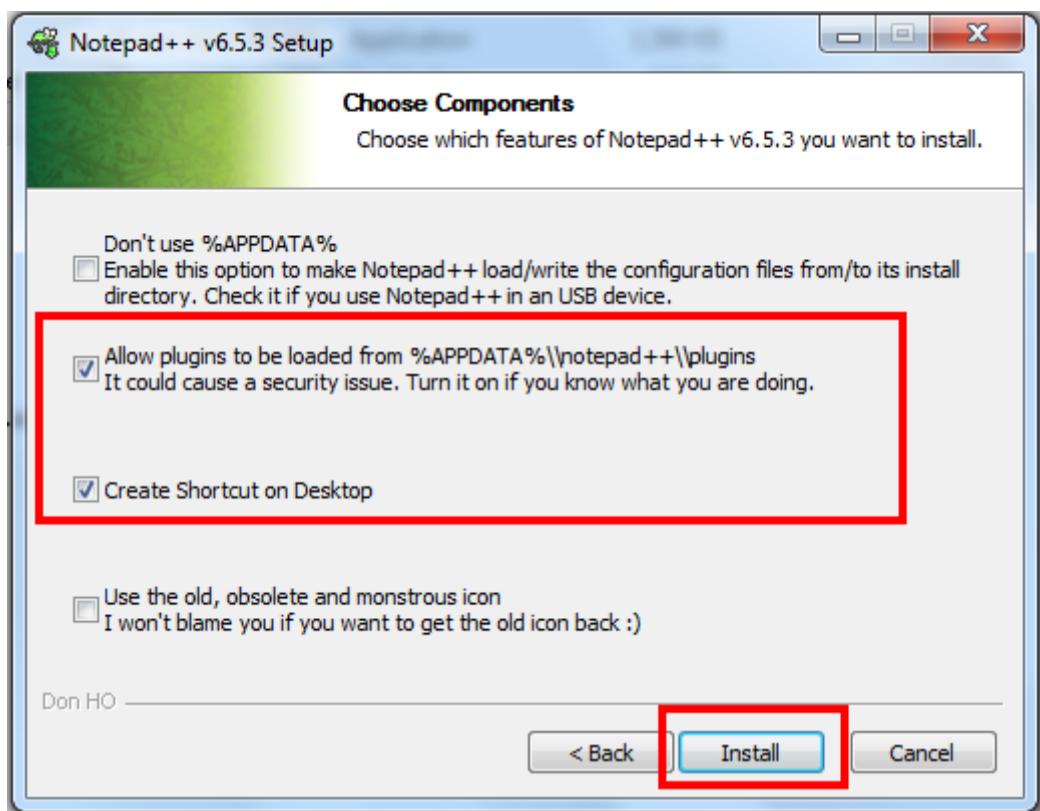

Figure 6.6

g. Installation success, click 'Finish' button. (Refer figure 6.7)

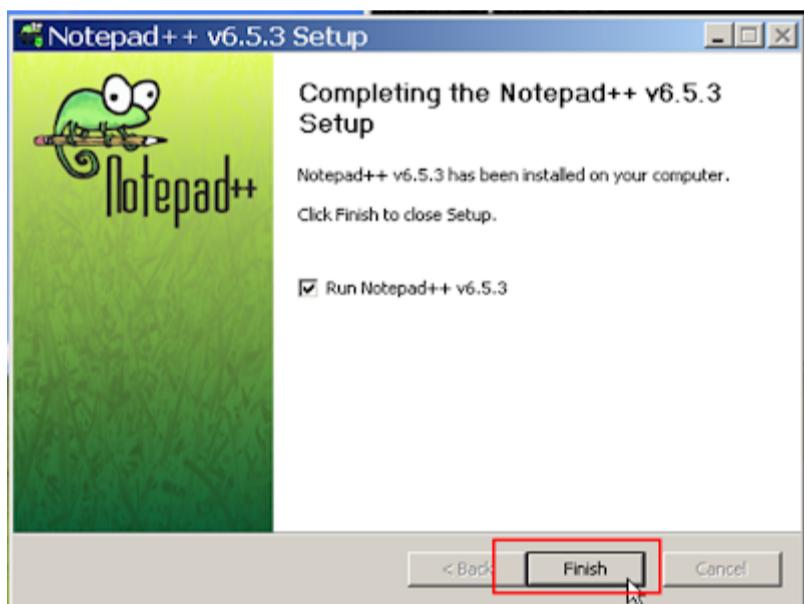

Figure 6.7

#### Tools 6: IE Context Menu Toolset (Compulsory, for developer right click)

- installer name: ContextMenuSetup.exe

a. Click 'Next' button to start the setup. (Refer figure 11.1)

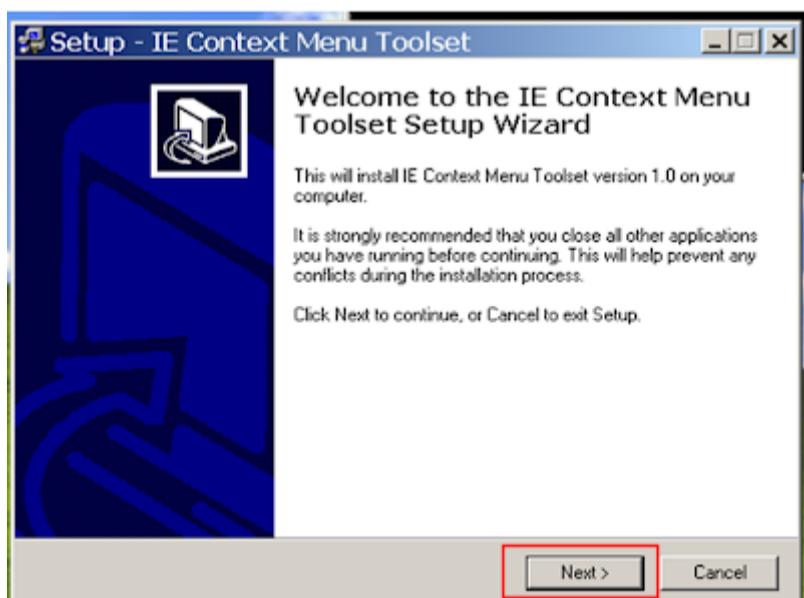

Figure 11.1

b. Click 'Next' button to continue. (Refer figure 11.2)

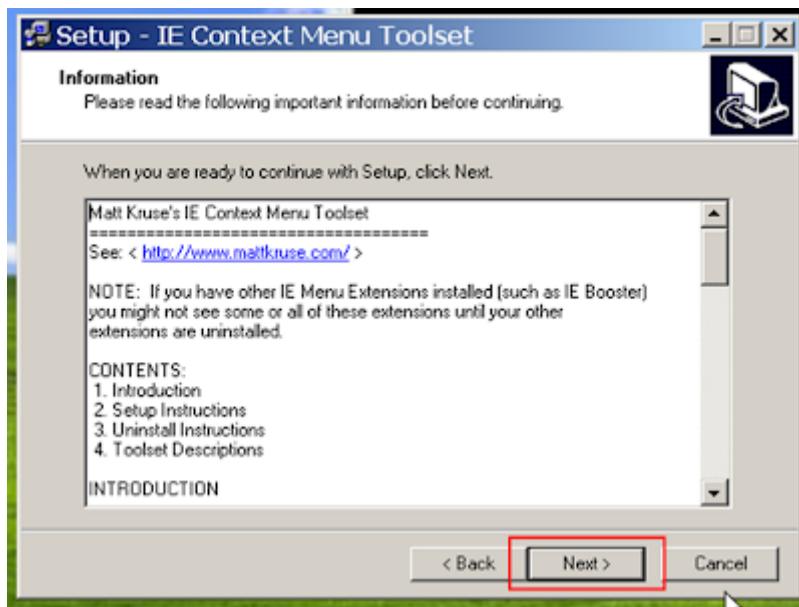

Figure 11.2

c. Select the destination directory for setup and click 'Next' button to continue. (Refer figure 11.3)

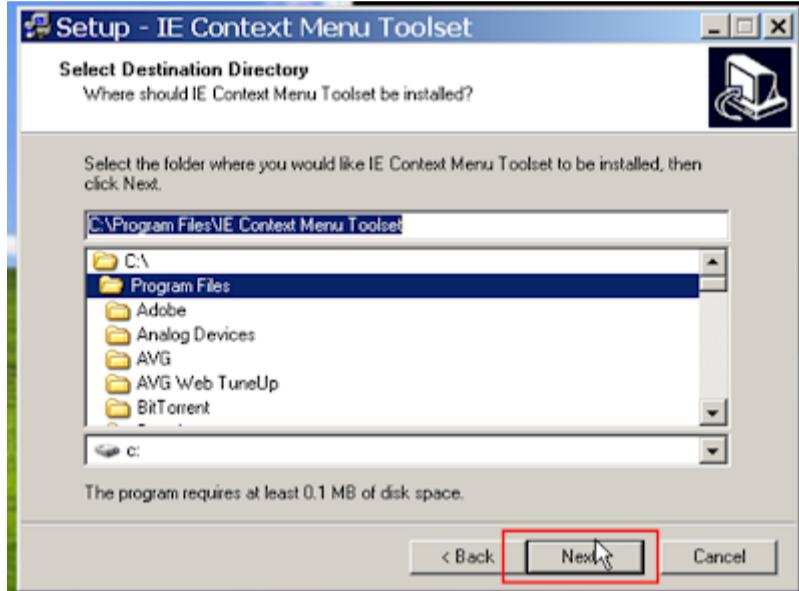

Figure 11.3

d. Select the start menu folder and click 'Next' button to continue. (Refer figure 11.4)

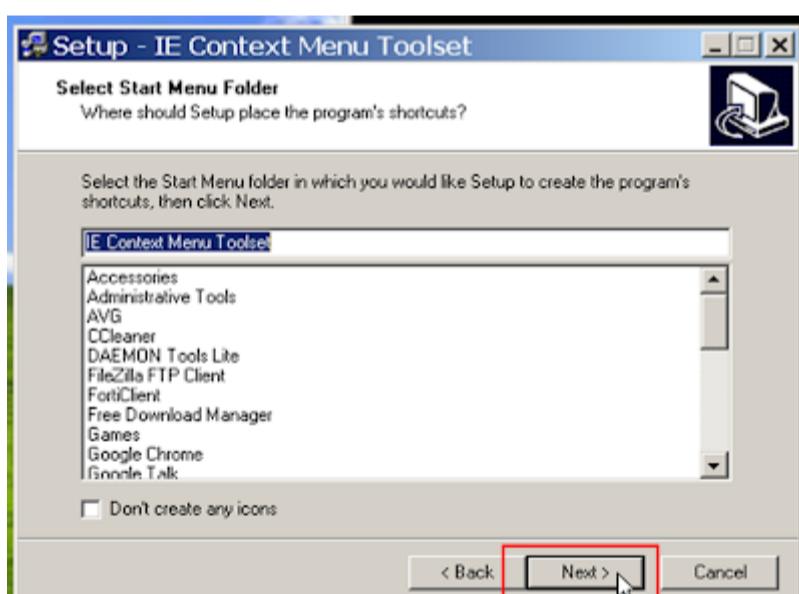

Figure 11.4

e. Click 'Next' button to continue. (Refer figure 11.5)

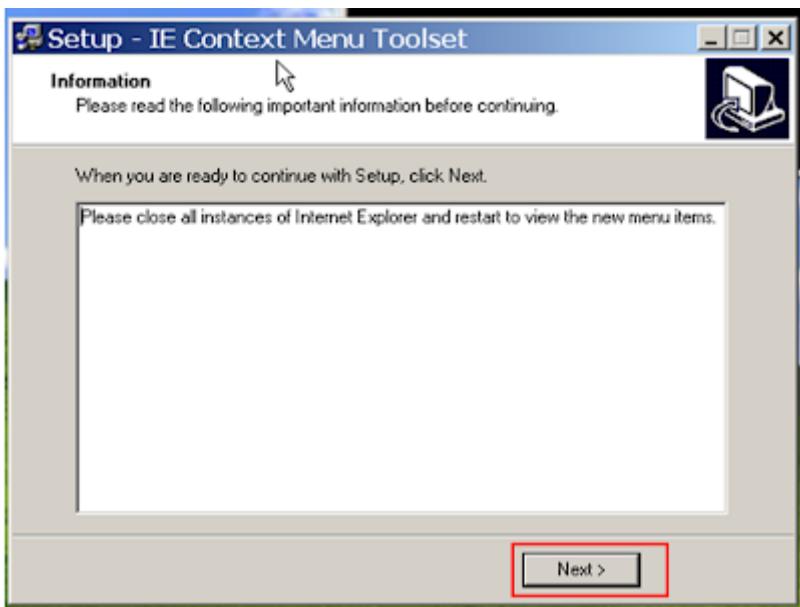

Figure 11.5

f. Setup success, click 'Finish' button. (Refer figure 11.6)

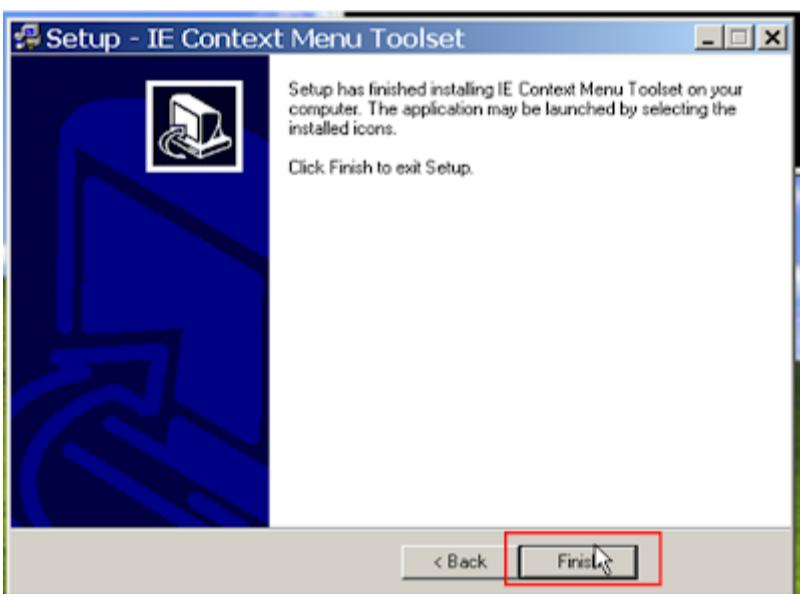

Figure 11.6

g. Open the IE browser, right-click on the page. The menu items will be shown. (Refer figure 11.7)

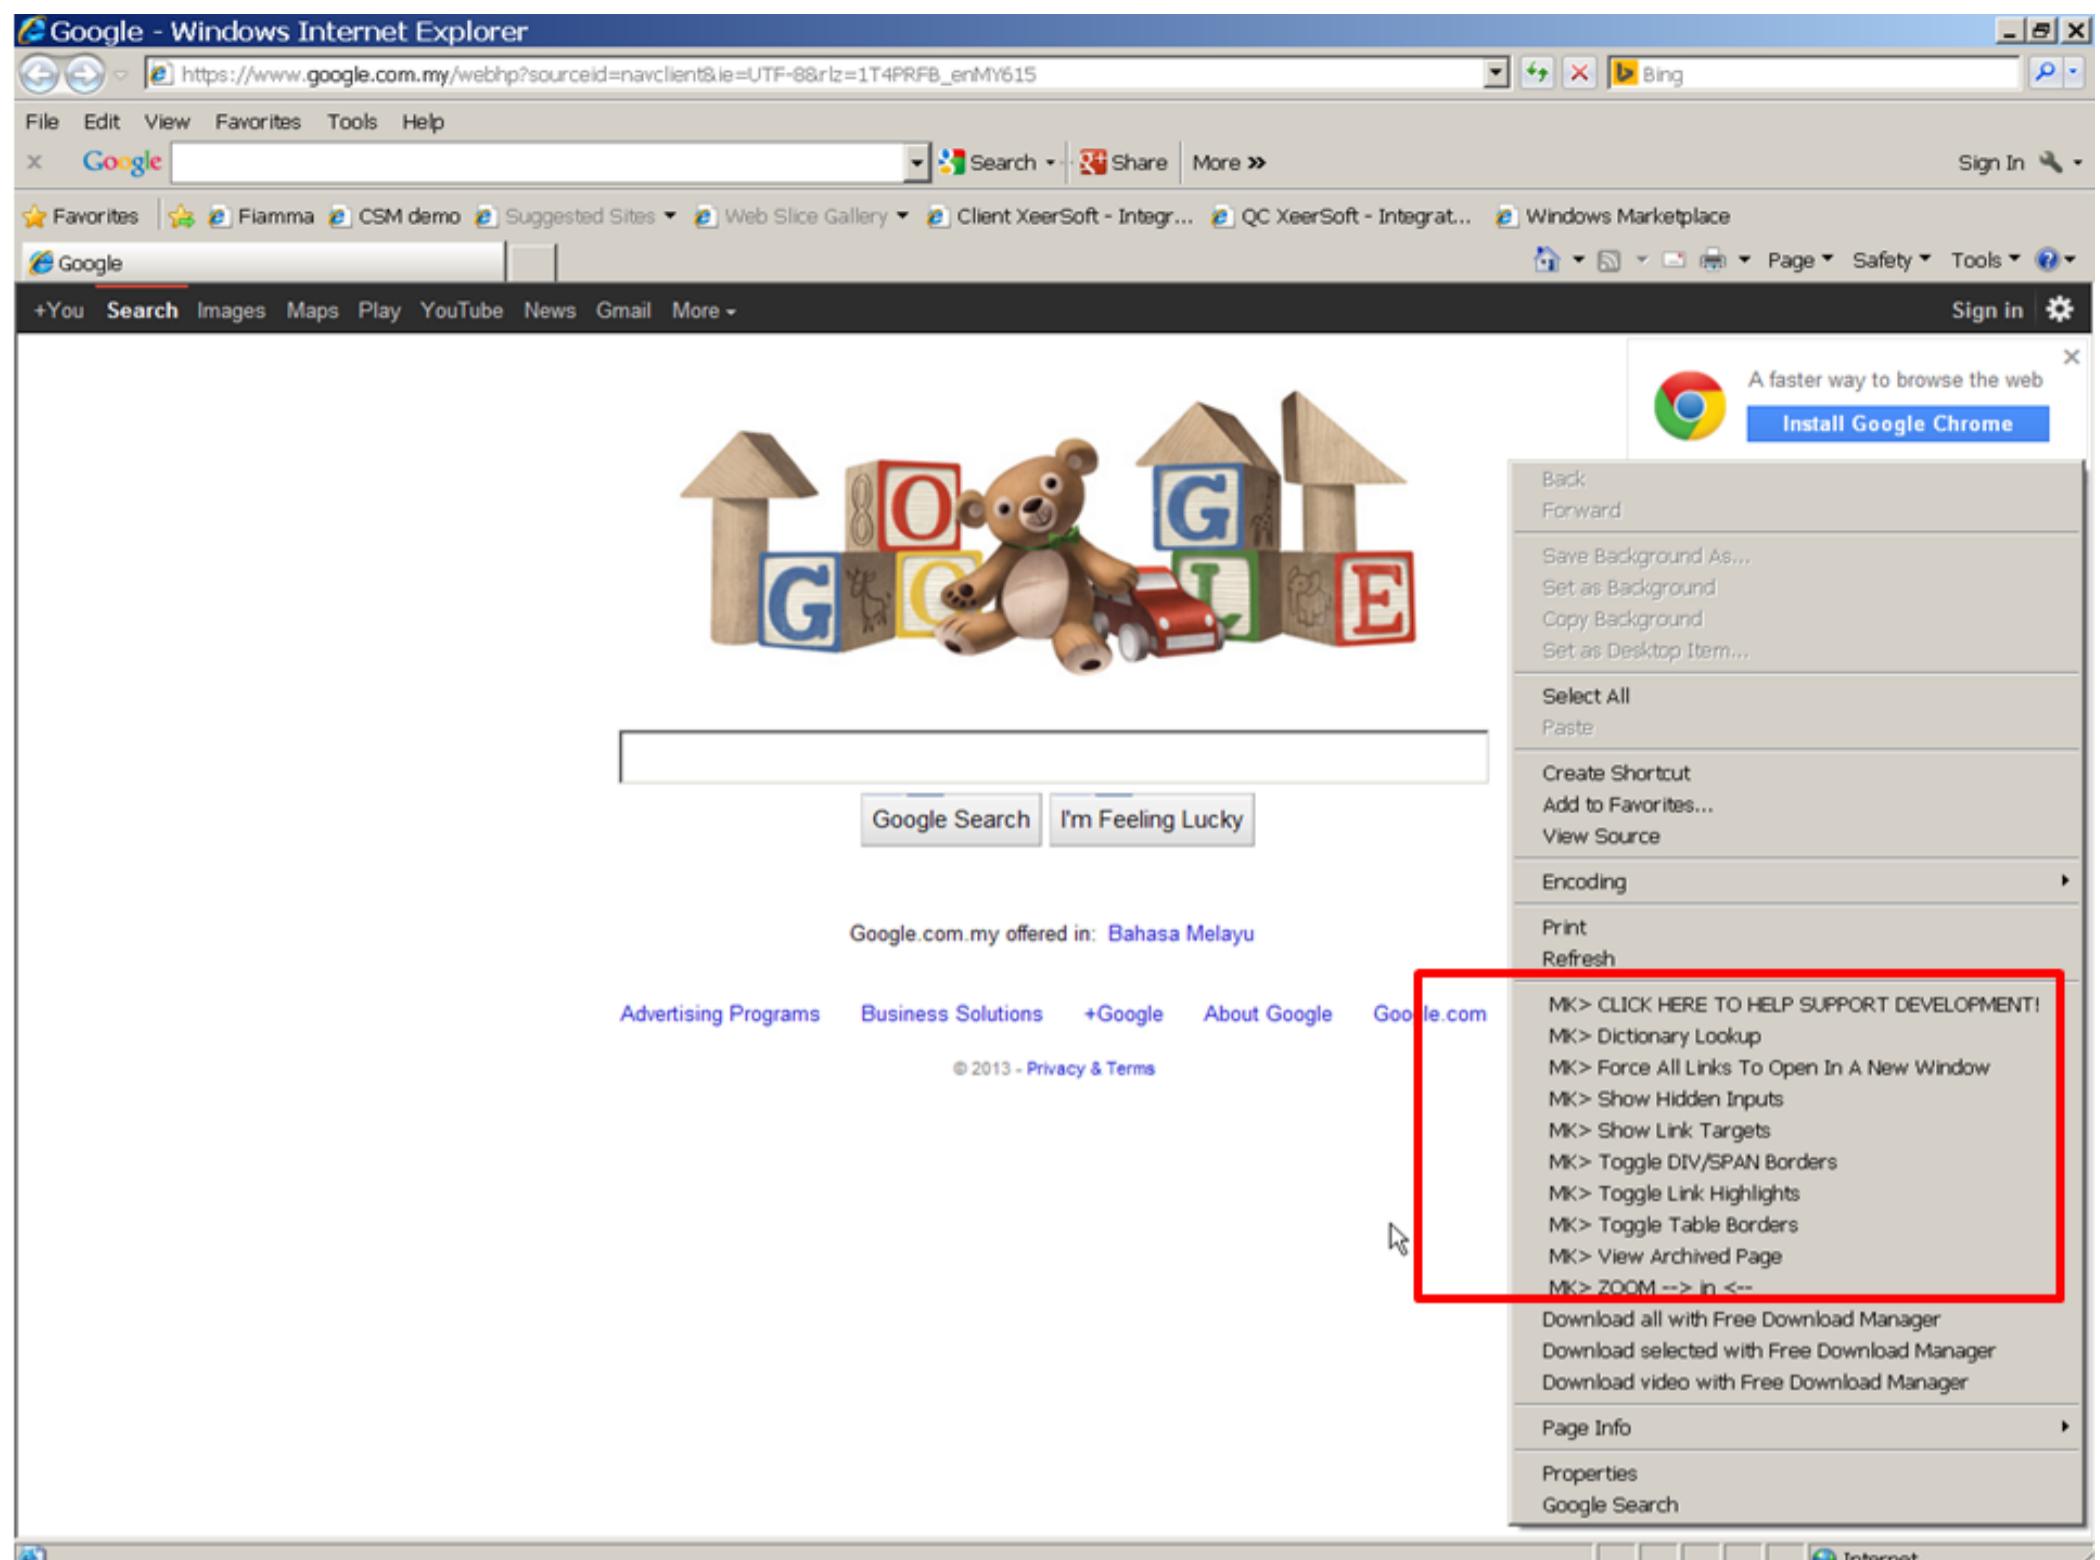

Figure 11.7

## Tools 7: XMind 2013

- installer name: xmind-8-update2-windows.exe
- a. Click 'Next' button to start the setup. (Refer figure 12.1)

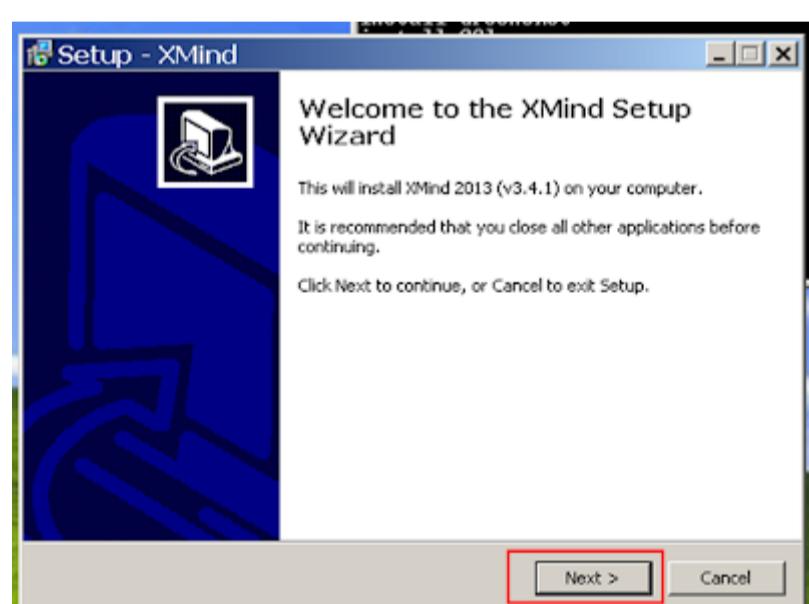

Figure 12.1

- b. Accept the license agreement and click 'Next' button to continue. (Refer figure 12.2)

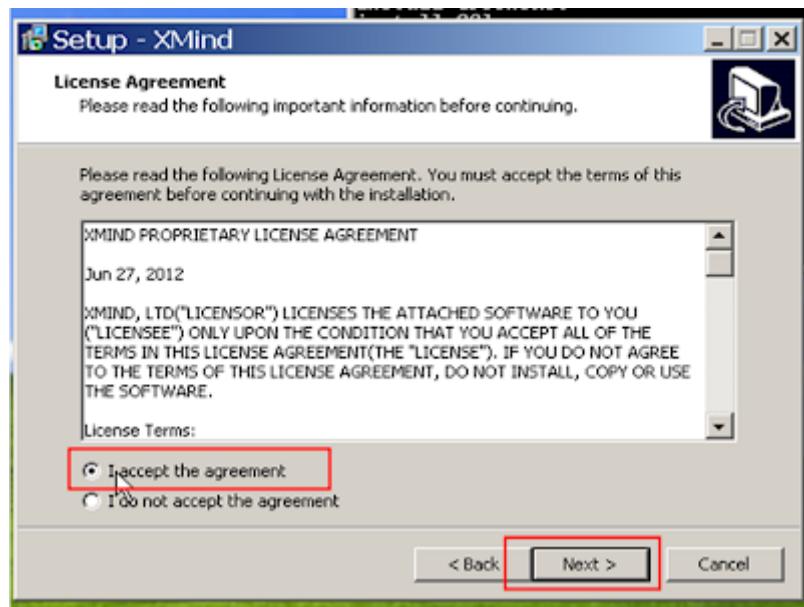

Figure 12.2

c. Select the destination folder and click 'Next' button to continue. (Refer figure 12.3)

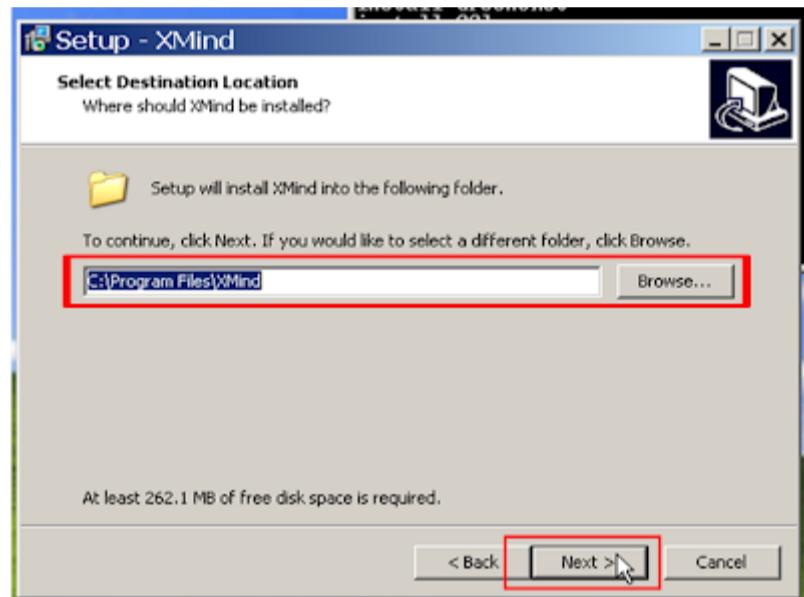

Figure 12.4

d. Select the additional task that you want and click 'Next' button to continue. (Refer figure 12.5)

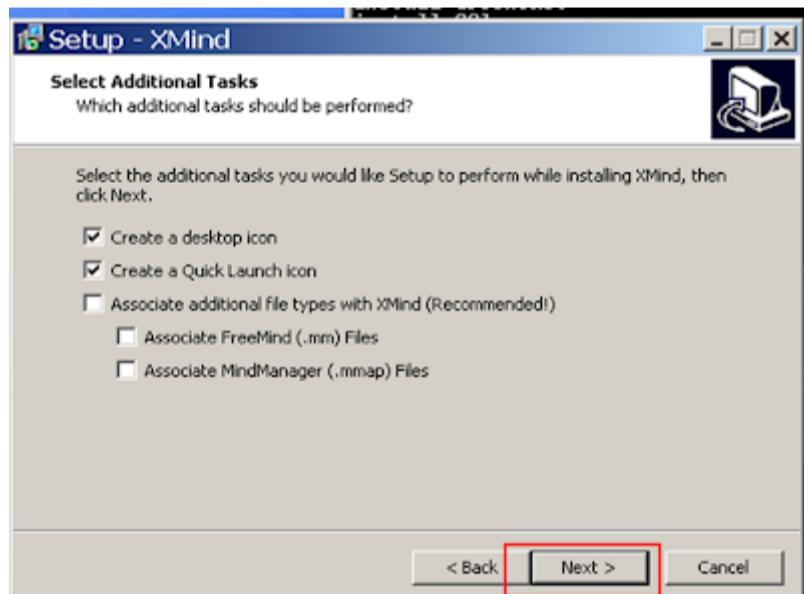

Figure 12.5

e. Click 'Install' button to start the installation. (Refer figure 12.6) The process may need several minutes, please wait patiently.

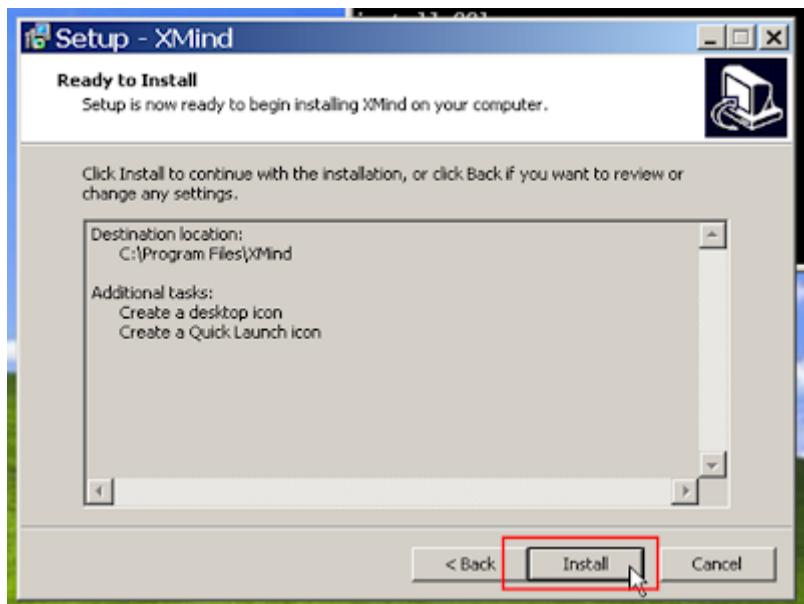

Figure 12.6

f. Installation success, click 'Finish' button. (Refer figure 12.7)

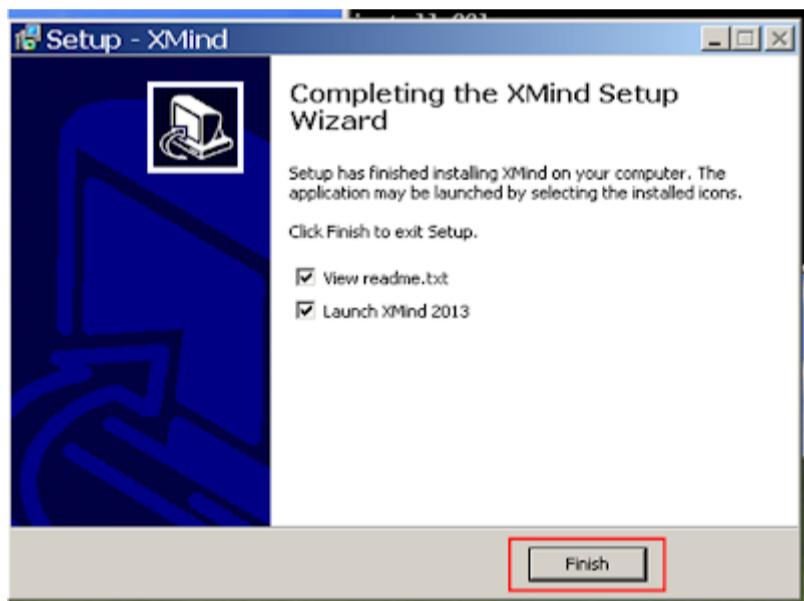

Figure 12.7

#### Tools 8: CCleaner v3.17 (For support only, to clear cache for client)

a. Please select the installer language that you want. (Refer figure 8.1)

Figure 8.1

b. Click 'Next' button to start on setup. (Refer figure 8.2)

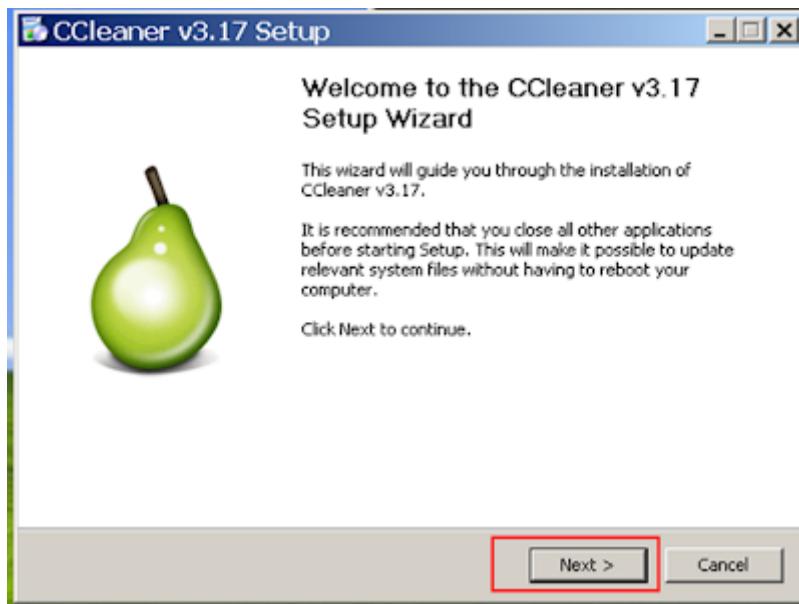

Figure 8.2

c. Click 'I Agree' button to accept the license agreement. (Refer figure 8.3)

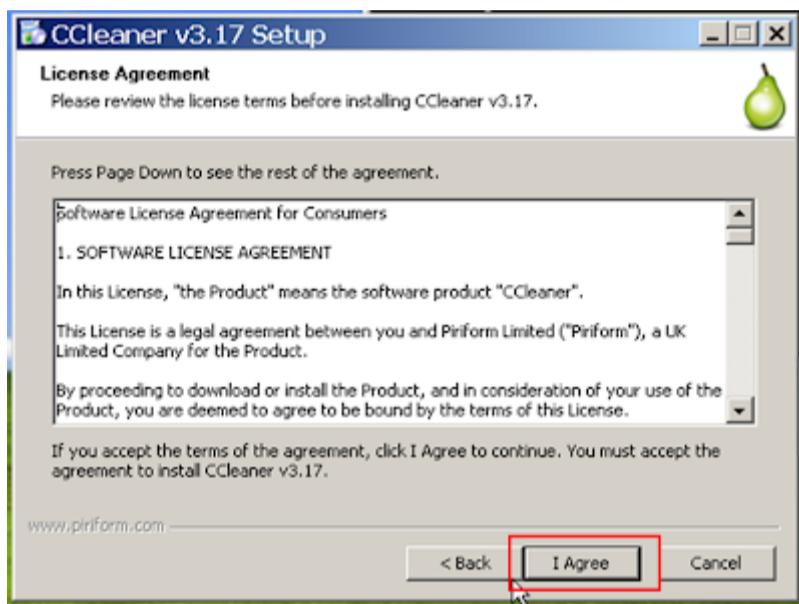

Figure 8.3

d. Select the install options and click 'Next' button to continue. (Refer figure 8.4)

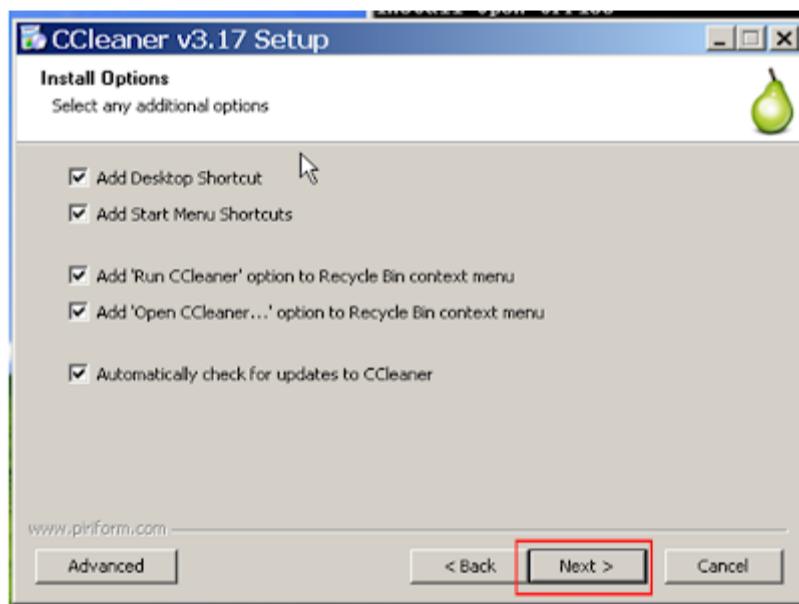

Figure 8.4

e. Click 'Install' button to start the installation. (Refer figure 8.5) The process may need several minutes, please wait patiently.

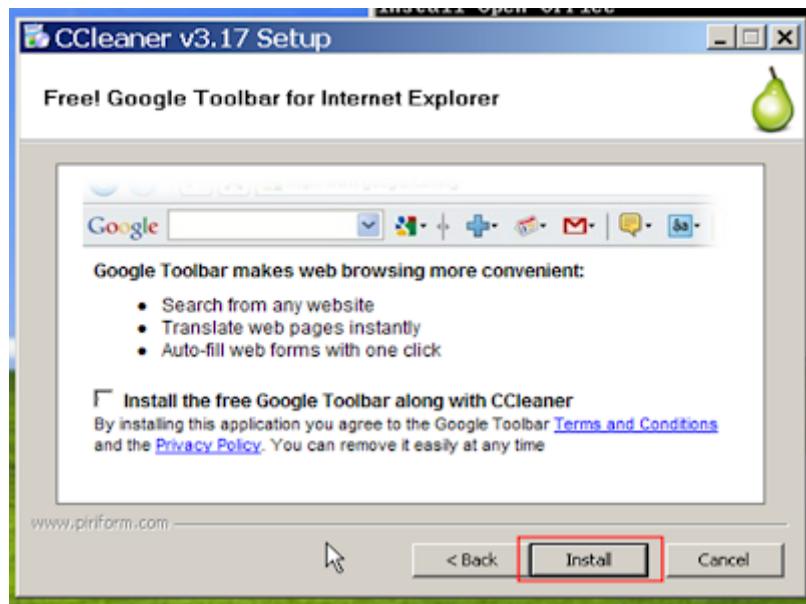

Figure 8.5

f. Installation success, click 'Finish' button. (Refer figure 8.6)

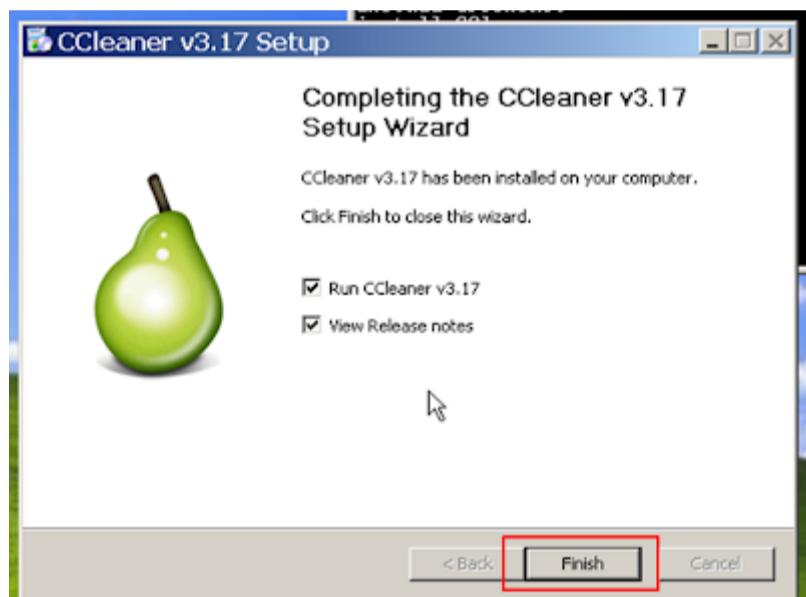

Figure 8.6

#### Tools 9: Free Download Manager (Not compulsory)

a. Click 'Next' button to start the setup. (Refer figure 9.1)

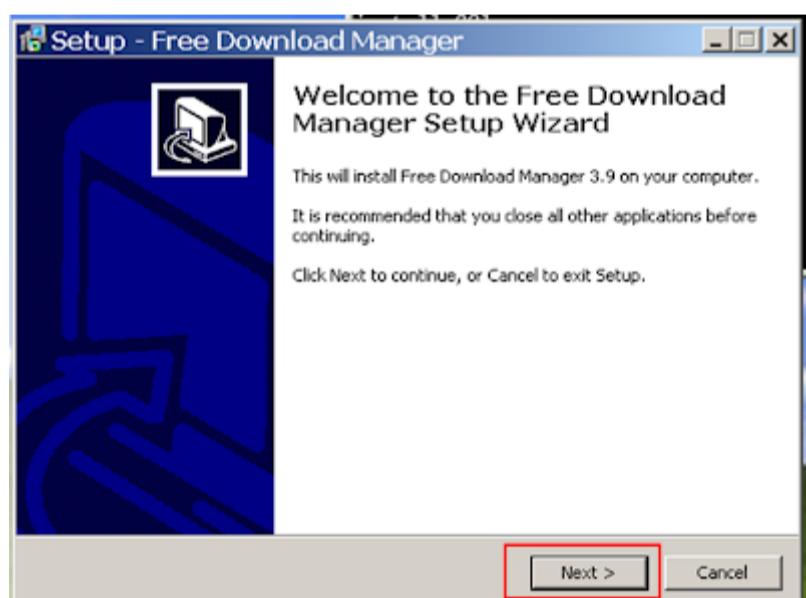

Figure 9.1

b. Accept the license agreement and click 'Next' button to continue. (Refer figure 9.2)

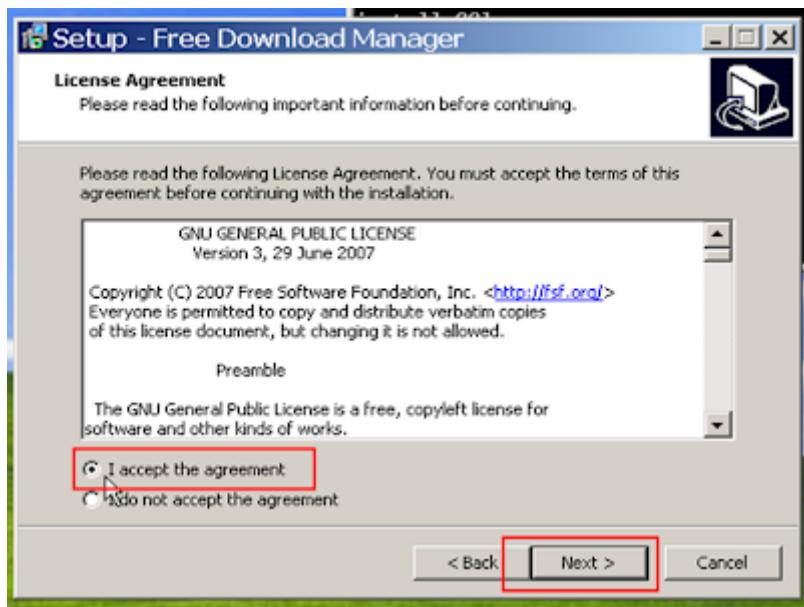

Figure 9.2

c. Click 'Next' button to continue. (Refer figure 9.3)

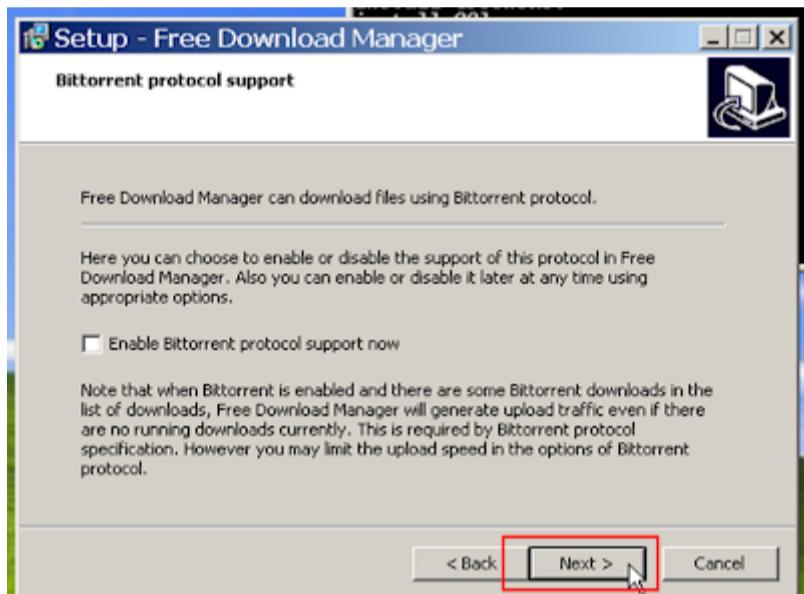

Figure 9.3

d. Choose the language for software and click 'Next' button to continue. (Refer figure 9.4)

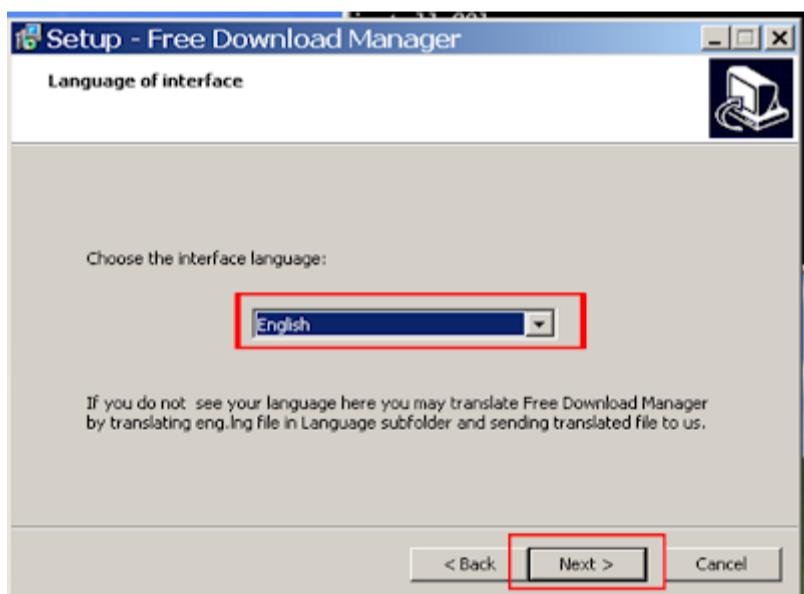

Figure 9.4

e. Select the destination folder and click 'Next' button to continue. (Refer figure 9.5)

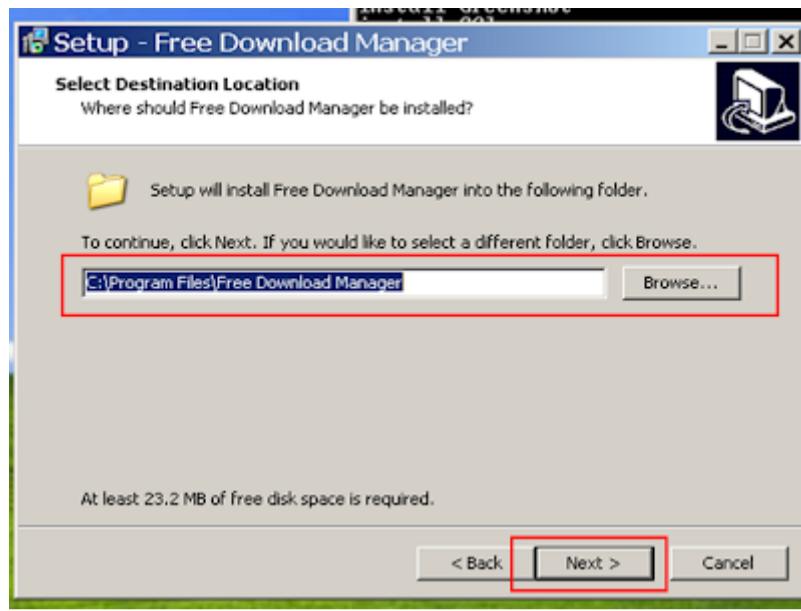

Figure 9.5

f. Select the start menu folder and click 'Next' button to continue. (Refer figure 9.6)

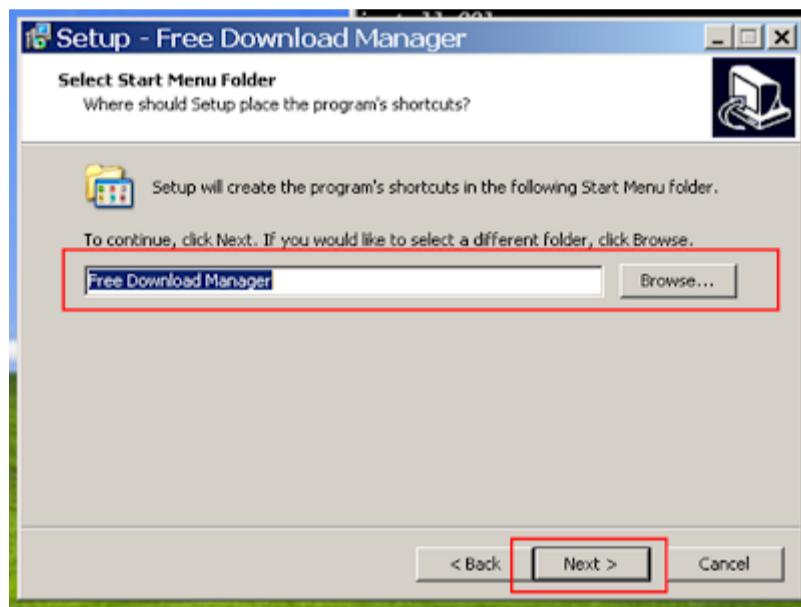

Figure 9.6

g. Select the additional task that you want and click 'Next' button to continue. (Refer figure 9.7)

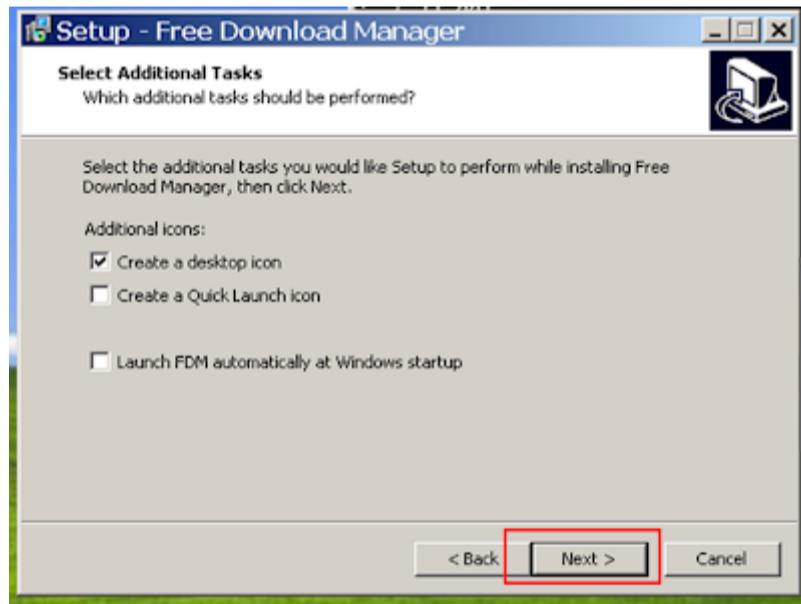

Figure 9.7

h. Click 'Install' button to start the installation. (Refer figure 9.8) The process may need several minutes, please wait patiently.

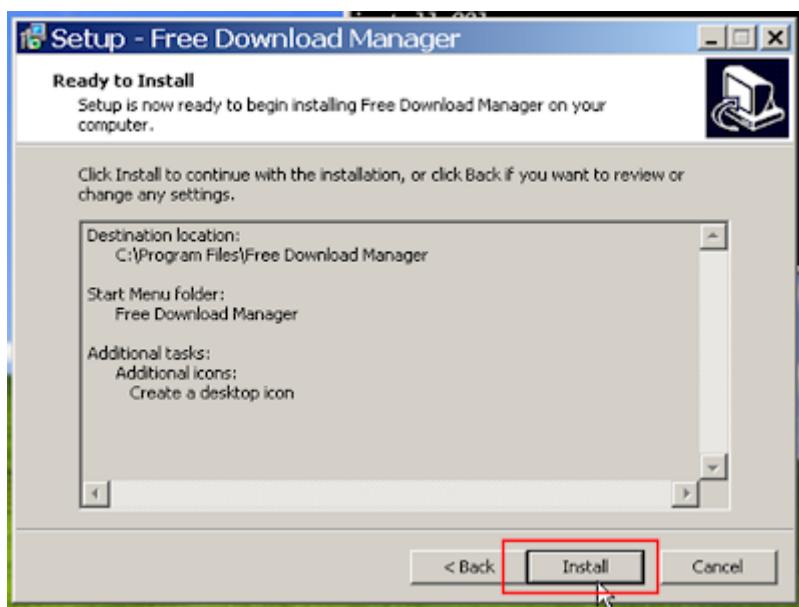

Figure 9.8

i. Installation success, click 'Finish' button. (Refer figure 9.9)

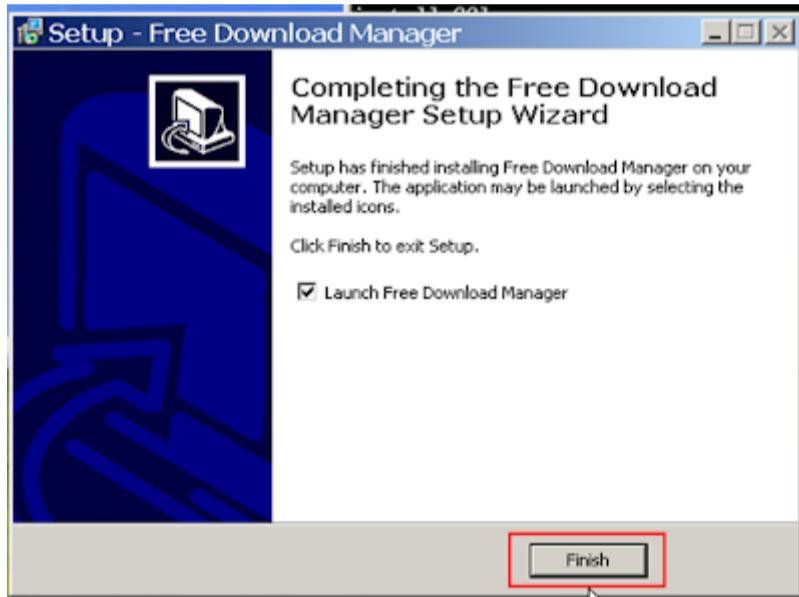

Figure 9.9

#### Tools 10: PDFFCreator v1.7.3 (Not Compulsory)

a. Select the language that you want to use during installation. (Refer figure 10.1)

Figure 10.1

b. Click 'Next' button to start on the setup. (Refer figure 10.2)

Figure 10.2

c. Accept the license agreement and click 'Next' button to continue. (Refer figure 10.3)

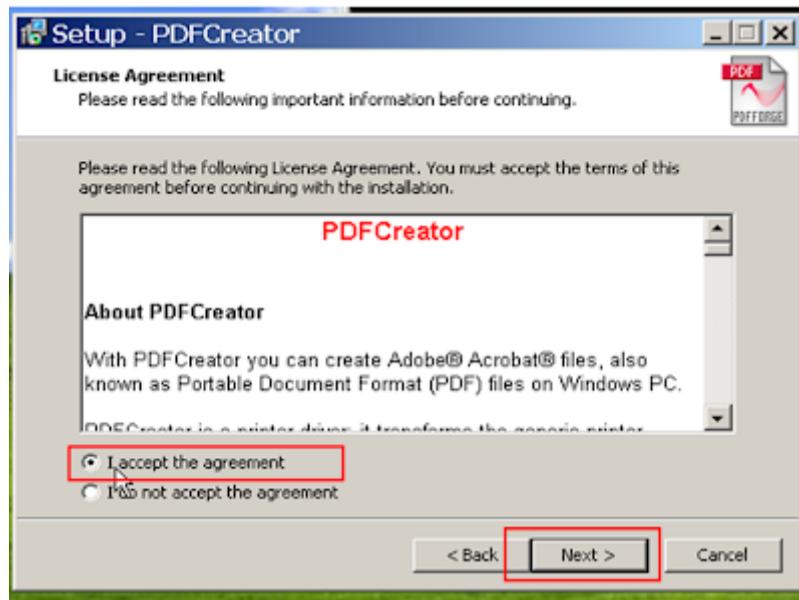

Figure 10.3

d. Select the components to installed and click 'Next' button to continue. (Refer figure 10.4)

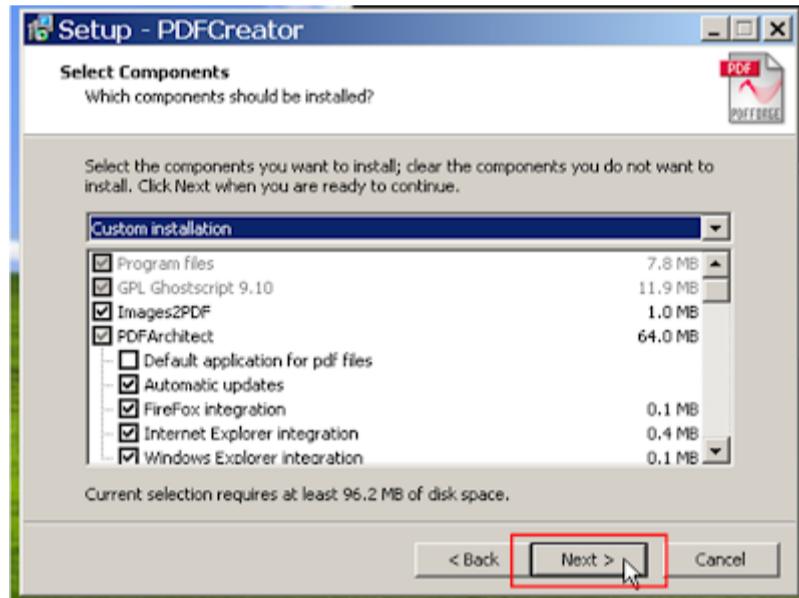

Figure 10.4

e. Click 'Install' button to start the installation. (Refer figure 10.5) The process may need several minutes, please wait patiently.

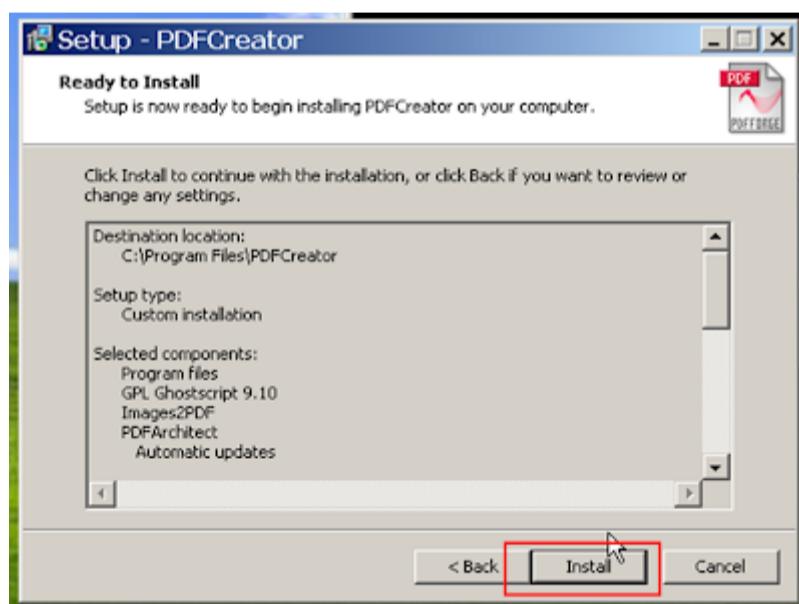

Figure 10.5

f. If during the installation, appear this window, click 'Cancel' button to continue the installation. (Refer figure 10.6)

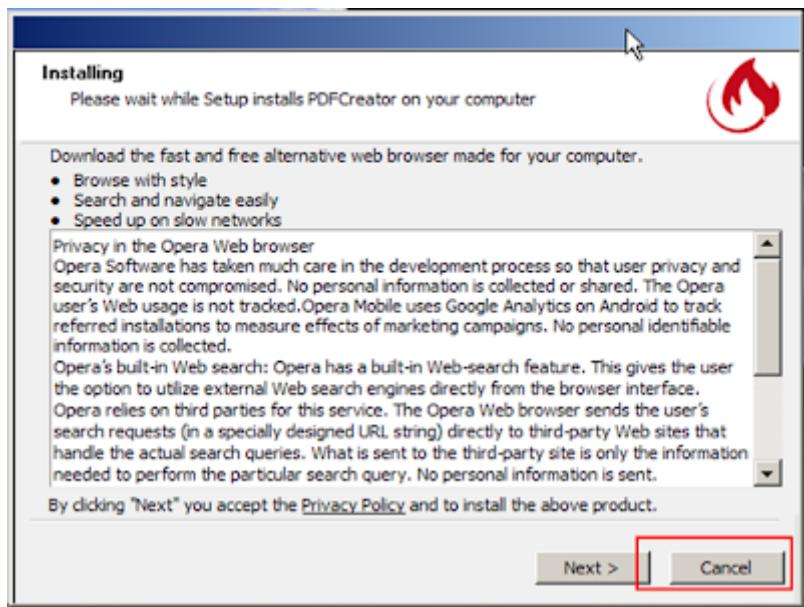

Figure 10.6

g. Installation success, click 'Finish' button. (Refer figure 10.7)

Figure 10.7

#### Tools 11: OpenOffice.org 3.3 (Optional: you can use Microsoft Office/WPS)

- installer name: Apache\_OpenOffice\_4.1.2\_Win\_x86\_install\_en-GB.exe

a. Click 'Next' button to continue. (Refer figure 3.1)

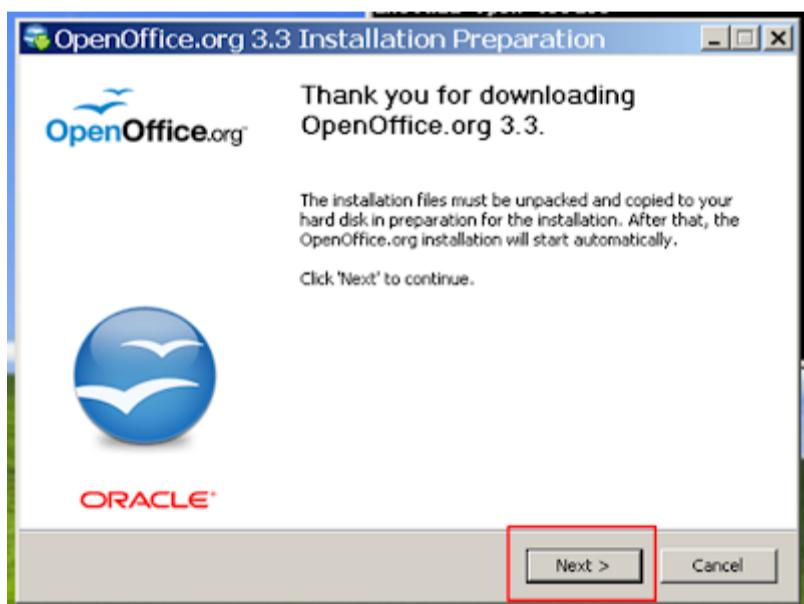

Figure 3.1

b. Select the destination folder to save the unpacked file and click 'Unpack' button. (Refer figure 3.2) The unpacking process may take several minutes, please wait it patiently.

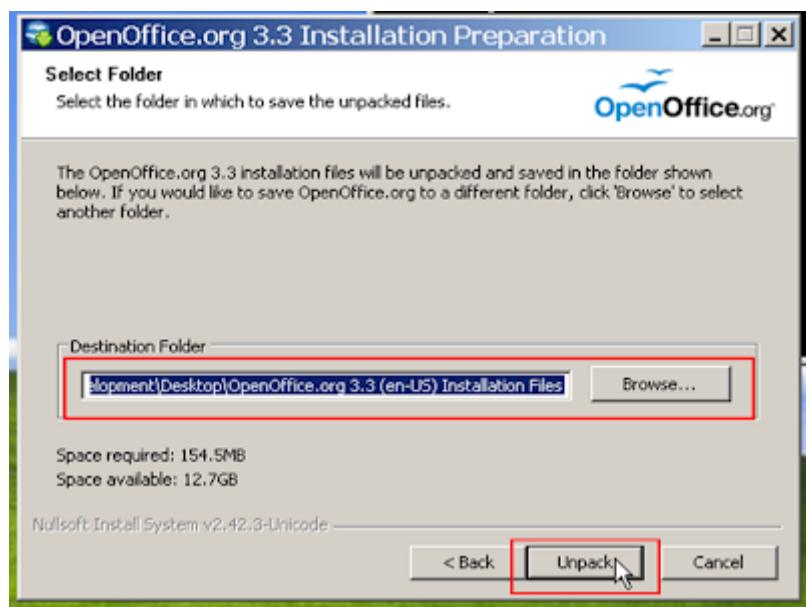

Figure 3.2

c. Click 'Next' button to continue. (Refer figure 3.3)

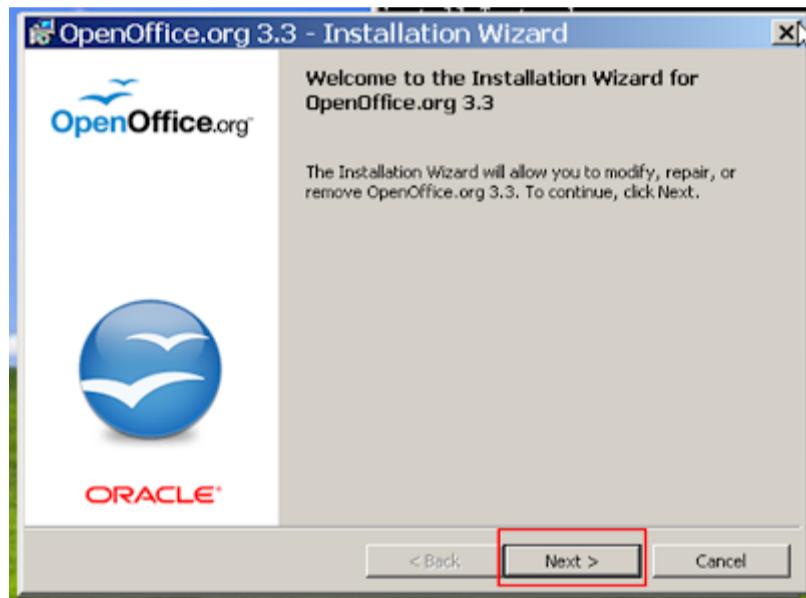

Figure 3.3

d. Please enter your information and click 'Next' button to continue. (Refer figure 3.4)

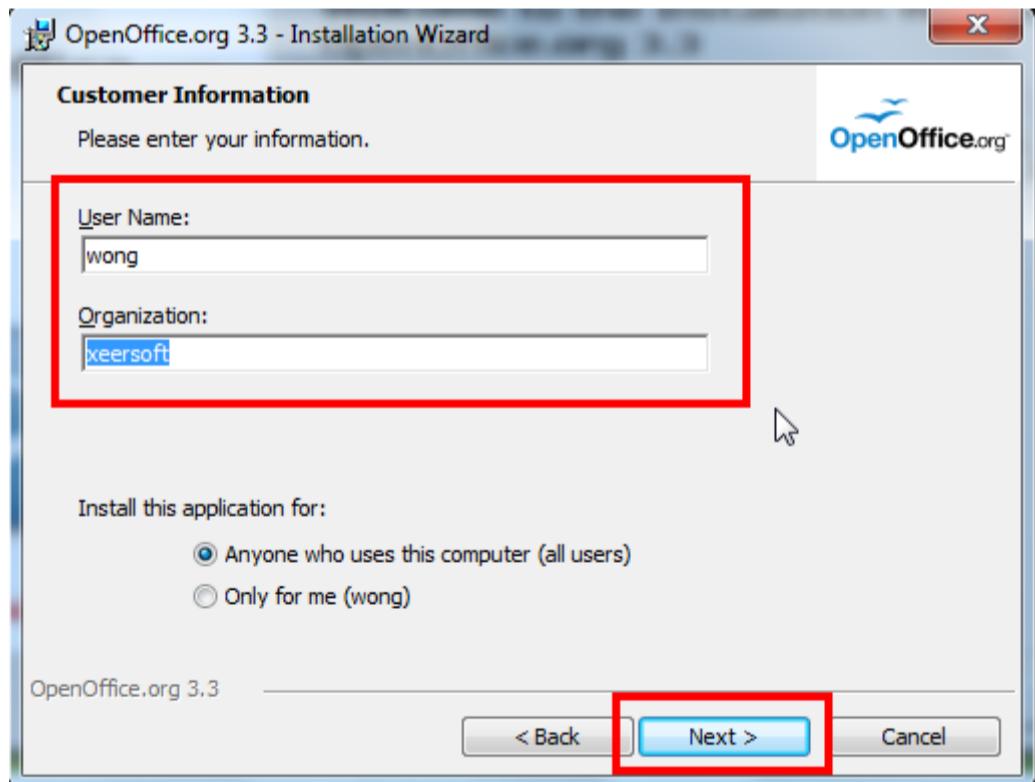

Figure 3.4

e. Choose the 'Typical' setup type and click 'Next' button to continue. (Refer figure 3.5)

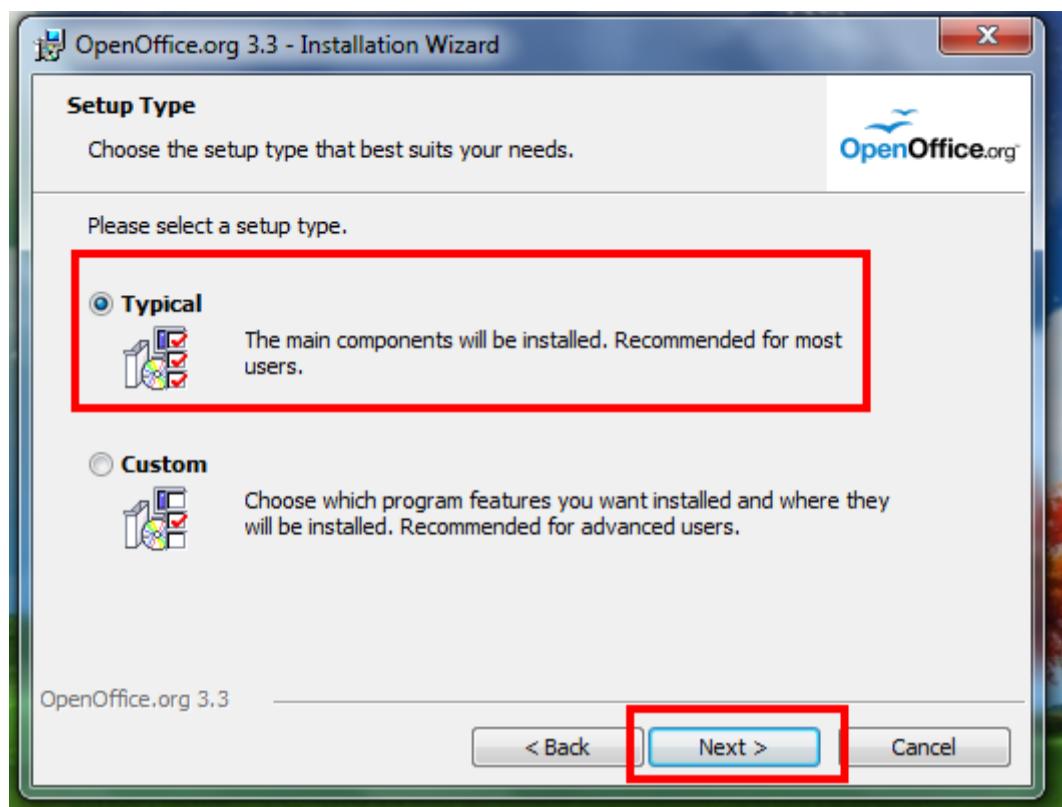

Figure 3.5

f. Click on 'Install' button to start the installation. (Refer figure 3.6) The process may need several minutes, please wait patiently.

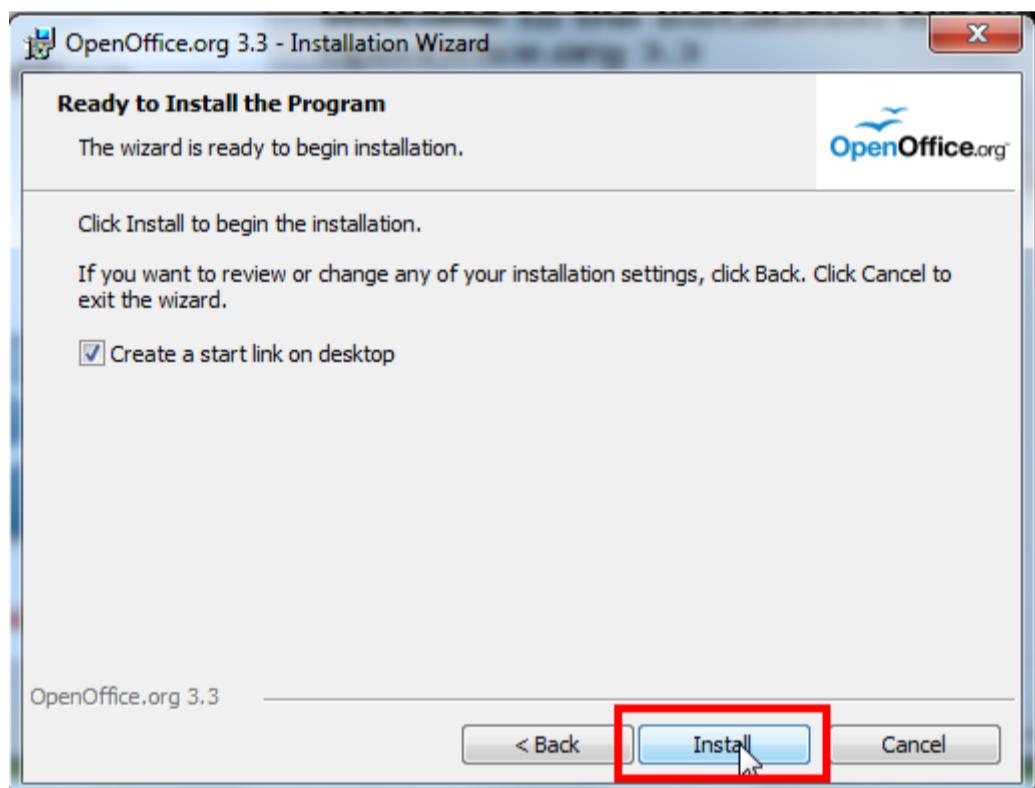

Figure 3.6

g. Installation completed, click 'Finish' button. (Refer figure 3.7)
